The members of the municipal council at a regular meeting this morning voted to pay back salaries to Robert J. Thomas, superintendent of water works; Edward H. Foye, purchasing agent and former treasurer; and Andrew J. Stiles. In the course of the meeting Jackson Palmer, of the waterways committee recommended that an inspector for the

waterways and the life saving apparatus be appointed and the matter was referred to the mayor, as was also that of tearing down the old wooden bridge across Beaver brook. Considerable routine business was transacted.

The meeting was called to order at 10.10 o'clock by Mayor O'Donnell.

## DISABLED U-BOAT IN SPANISHPORT

CADIZ, Spain, June 11, via Paris, June 12.—The Spanish torpedo boat No. 6, this morning discovered the German submarine U-20 disabled from gun shots which had struck her engines. The submarine was towed into Cadiz and stripped of her wireless apparatus so that the vessel could not communicate with vessels of the central powers. It is believed the vessel will be interned. The German commander today paid a visit to the Spanish port officials who later returned the visit.

The submarine is of 450 tons and carries a crew of 20. It is equipped with two torpedo tubes and two rapid-fire guns.

## RECRUITING CAMPAIGN NEARING THE CLOSE

Major Kittredge announced this noon at the Westford street armory that the recruiting campaign will be brought to a close in the course of a few days, because the three local companies of the sixth regiment have nearly filled their ranks to the desired 150. Presently Co. C has 22 men, Co. G 20, and Co. K only 10. As soon as any one of these companies succeeds in enrolling the required number the company will be sent to Framingham for intensive training. Major Kittredge stated that there was no doubt but that the campaign for local "rookie" companies would leave for Framingham tomorrow night.

This morning Co. C got two new men and Co. G the same number. There was no drill held, as the recruits were not hunting up their uniforms in an effort to have them join the guard. Several of the outlying towns were visited with the result that 12 new men came from Methuen for examination, and as many more will probably appear before the day is over as a result of the suburban recruiting. Major Kittredge said that he has in memory all this evening and says that he is ready to examine 100 men if necessary.

The ninth regiment Co. M needs 35 men and plans for an extensive recruiting campaign are under way.

The gold watch which was offered by the management of the World of Pleasure shows last week was won by Adam Kowalski of 30 Stockpile street. He enlisted Thursday in Co. G and was the first to pass the examination. The 22 new recruits who are to be sent to Newport tomorrow will parade to the Middlesex street station tomorrow forenoon, and appropriate exercises will be held at the armory. The first street and George J. Francis of 10 First street are two new men who will be added to tomorrow's contingent.

## SEC. DANIELS ORDERS RIGID INVESTIGATION

WASHINGTON, June 12.—Charges that the detonating fuse used in navy shells is inferior will be rigidly investigated by the senate naval committee, Secretary Daniels said today, when that body begins tomorrow the inquiry resulting from the receipt of a letter by Senator Frelinghuysen which the secretary charged yesterday showed that confidential information in the ordnance bureau was being disclosed by a spy or traitor.

The secretary has directed Rear Admiral Earle, chief of the bureau, and his two immediate predecessors in that office, Captains Twining and Strauss, to appear before the committee. All three officers have had a part in the development of the fuse and believe it to be the most efficient yet devised in any country.

The second phase of the inquiry will be to discover how highly confidential information contained in the letter became known to the writer.

## DOG SHOW AT VESPER COUNTRY CLUB

Visitors to the Vesper Country club grounds in Tyngstboro today were greeted with many a bark and growl and whine, for it was the second annual dog show of the Ladies Dog club, and over 600 canines of all sizes, breeds, and colors were assembled. The show was scheduled to open at 10.30 a. m., but on account of the unpleasant weather of the early forenoon there was practically nothing going until noon. The judging started before 12 o'clock and some of the early winners were announced as follows: Foxhounds, class No. 30, limit dogs, first, "My Boudoir," owned by A. F. Elcock of Quincy; reserve, "Night," owned by Mr. and Mrs. J. A. Woodbury of Gloucester. Class No. 55, open bitches, first, "Mimosa," owned by A. F. Elcock; reserve, "Brightest Star," owned by Mr. and Mrs. Woodbury.

The judges were W. B. Atherton, H. D. Kirkover, Benj. H. Throp, James W. Spring, J. M. Fagmann, Dr. C. F. Sullivan, Chas. W. Keyes, Mrs. A. L. Holland, Mrs. Benj. H. Throp, G. Steadman Thomas, H. W. Lacy, Dr. J. E. DeMund, Chas. G. Hopkinson.

Charles E. O'Connor of Boston was the show secretary, and had general charge of the affair. The show will continue until 6 o'clock this evening and the proceeds will be given for the relief of Belgian children.

At Chalfoots there are no class distinctions either. All are served alike with the same best care, small or great, rich or poor. This store has long foreseen the evil of class distinctions and that is why it is run on a democratic basis.

## DRIVER FINED \$20 FOR OBSTRUCTING STREET

James F. Moran was arraigned before Judge Pickman in police court this morning on complaints charging him with obstructing the street railway tracks in Fletcher street on the afternoon of May 23 and delaying passengers on the car. He entered a plea of not guilty, but after the evidence in the case had been submitted Moran was found guilty and ordered to pay a fine of \$20. He appealed.

Conductor John H. Fagan and Motorman Thomas J. Sheehan were the first witnesses called and they testified that on the afternoon of the 23d they left Merrimack street at 1.31 o'clock and upon arriving at the Perkins Machine shop in Fletcher street workmen were loading a lathe on a dory. After being held up for about 14 minutes they asked the doryman if he would give the car a chance to pass, but instead of having the horses pulled aside another lathe was loaded on the wagon. Owing to the fact that the car could not get by it was sent back to the square and one of the passengers was taken back on it, while the other decided to walk.

Daniel A. Carpenter, who was a passenger on the car, said that he got off and walked to his destination after waiting about 14 minutes in front of the machine shop. David Compton, another passenger, went back to Merrimack square and got a transfer for one of the lines running through Pawtucket street. Thomas J. Andrews, a conductor employed by the Bay State Street Railway Co., told of continued offenses of the street being blocked by a dory.

Moran, testifying in his own behalf, said that the machines had to be taken out and he felt that he was not blocking the place when the workmen were rushing the work as fast as possible and felt that the street railway company or the passengers should not mind a short delay when it was necessary for legitimate work to be done.

William E. Grady, a foreman at the machine shop, admitted that there were more or less delays at times, but that he always endeavored to have the work of loading started immediately after the electric car went towards Pawtucket street and that when the car was returning the work of loading was completed.

## PEARY SAYS AIRPLANES WILL CURB U-BOATS

WASHINGTON, June 13.—Rear Admiral Robert E. Peary told a subcommittee of the senate military committee today that the airplanes were the cheapest and quickest answer to the submarine and that if 1000 airplanes were sent abroad they would do more to curb the submarine menace than anything else that could be done.

With the concentration of effort as von Tirpitz exerted to develop the submarine in Germany I think we will have an answer to the submarine and a quick decision of the war," he declared.

The general opinion among experts, he said, is that the war will be decided in the air and that soon airplanes will be fighting in brigades of from 500 to 1000 fliers.

What might have resulted in a tragedy in the Collinsville section of Dracut was probably averted by the timely arrival of Officer William H. Cullinan of that town, this morning. Ahamed Hassan, aged about 30 years, is locked up at the police station in this city, charged with assault with intent to kill his infant daughter and an additional complaint of assault with intent to kill his wife, may also be made against him when brought before the court tomorrow morning. The wife is suffering from great nervousness since the assault and although the child has recovered consciousness its condition is still serious.

Hassan and his family live in Merrimack road in Collinsville, and of late he had been employed at the Beaver

Brook farm. According to what could be learned from neighbors and the police of Dracut, Hassan started to assault his wife this morning, as a result of an argument over some family affairs and during the course of the struggle he drew an automatic revolver and threatened to kill the woman, but she rushed out of the house. It is said that he gave chase, but being unable to overtake her rushed back into the house and taking his infant daughter, who is less than a year old off the bed on which she was lying, threw her on the floor.

Word was telephoned to Officer Cullinan and upon his arriving at the house he found that the child was in an unconscious condition and the woman was suffering from the nervous shock occasioned by the assault. A physician was summoned and Officer Cullinan started to scour the woods in the vicinity of the Hassan

home but soon got a clue that the man went to Lowell and shortly before noon located Hassan in a shoe store in Merrimack street, near city hall. He placed Hassan under arrest and took him to the police station where he was booked for assault with intent to kill.

The child did not recover consciousness until after noon and from time to time it would lapse into a state of coma.

When placed under arrest Hassan denied that he had a revolver and a careful search of his clothing failed to bring any weapon to light, but under a portion of his underclothing was found a clip, for an automatic revolver, containing eight cartridges of .35 calibre.

Considerable excitement was caused in the Collinsville section as a result of the assault, and a number of the residents instituted private searches for the man, but evidently he did not remain in Dracut long after the assault.

The incident was the subject of a series of notes between the United States and the Austrian government.

The Americans on Board

NEW YORK, June 12.—The Petrolite, a vessel of 3710 tons, owned by the Standard Oil Co., of New York, left here April 30 for Vienna and Leghorn, Italy. The vessel was in command of Capt. Thomas H. McKelium, and carried a crew of 38 men of whom 10 were Americans. The ship was armed and carried a gunners' crew.

According to the records of the shipping commissioner here the following were the Americans on board the vessel:

F. Feacher, mate, Templeton, Me. B. Fredericksen, second mate, Norwegian, naturalized.

Claf Mattson, third mate, Brooklyn, N. Y.

J. C. Clark, California.

J. Torrence, chief engineer, Linwood, N. Y.

men is expected to aid in detection of slackers.

Provost Marshal General Crowder today awaited registration reports from 15 states so that the nation's total can be figured, each state's conscription quota determined, and rules announced for the second step in the process, the summoning before local examination boards of a proportion of the men registered. These states had not reported up to last midnight: Arizona, Idaho, Indiana, Kentucky, Massachusetts, Michigan, Minnesota, Missouri, Montana, Nevada, New Mexico, New Jersey, Pennsylvania, South Dakota and Wyoming.

Returns from Michigan

LANSING, Mich., June 12.—Complete official tabulation of Michigan's registration this morning gave the state a total of 372,570 registered. Of this number the white registration was 294,397, colored registration 87,173. The total indicated possible exemptions were 182,210. The census bureau estimate for Michigan was 339,000.

Sell Draft Cards

NEW YORK, June 12.—Evidence of the sale of selective draft registration cards, presumably to be used by persons who evaded registration, while the original holders get duplicates for their own use, has been discovered here, it was announced yesterday by Edward F. Boyle, who directed the enforcement in this city.

This came out, he said, in the investigation of applications made by a number of foreigners for duplicate cards on the ground that they had lost their originals. Mr. Boyle stated that both parties to such a sale would be arrested.

Held for Grand Jury

NEW YORK, June 12.—Three men were arrested last night at a meeting of the No Conscription league where Emma Goldman and others denounced the war and the army were held for the grand jury today charged with refusing to register for the selective draft. They were Philip Levine, Herman Wassow and William Herrguth. They said they did not register because the registration act was unconstitutional.

# AN ADVISORY BOARD OF FIVE

Chosen By Republicans  
With Gillette as  
Leader

Western States Clamor  
for Recognition—  
Breakers Ahead

Special to The Sun  
WASHINGTON, D. C., June 12.—The republicans of the house have recently organized an advisory committee of five whose special mission will be to aid in mapping out a course of legislation and to be at the service of the minority in smoothing the way towards putting before congress such measures as may be deemed necessary. The New England member of the committee is Congressman Gillette, of the 2nd Massachusetts district, whose long term of service and wide acquaintance makes him an eminently fitted representative of New England's interests. The committee has for its other members Republican Floor Leader James R. Mann of Illinois, Mondell of Wyoming, Monroe of Pennsylvania and Lenroot of Wisconsin. The committee of five is the outcome of the committee of 21 which was the steering committee of the last session. It was thought a smaller committee could work more successfully and intimately and so get in closer touch with the needs of the various sections of the country. The men will meet daily before each session and confer not only among themselves but with other members regarding pending legislation. It was the purpose of the republicans to get members from widely separated sections of the country and representing widely varying shades of political opinion. In order that the entire republicans of the house might have representation on the advisory committee, New England is much pleased over the selection of Mr. Gillette, but the republican states are clamoring that they have no place in the little group of five leaders. Moreover, there is a hue and cry by them that no state farther west than Kansas has a member on the committee and means committee and they are casting covetous eyes on the vacancy left by the resignation of Col. A. F. Gardner and for which Congressman Treadway is a strong candidate. Mr. Gillette is second in rank on the advisory committee, only Floor Leader Mann having priority over him, and as Mr. Mann is away for a week, Mr. Gillette will serve as chairman until his return and on him will fall the responsibility of leading the steering committee through the turbulent week that is in store for congress.

## ITALIAN WAR MISSION ON TOUR OF U. S.

WASHINGTON, June 12.—The Italian mission, its work completed, will leave today for a ten days' tour of the country prior to its departure for Italy. The head of the mission, the Prince of Udine will remain here because of his illness which caused postponement of the trip last week. He plans to join the party at New York.

The first steps of the itinerary will be made tomorrow at Atlanta and Birmingham. Other cities to be visited in the order named, follow: New Orleans, Memphis, St. Louis, Burlington, Iowa, Chicago, Pittsburg, Harrisburg, New York and probably Philadelphia.

The government provided a special train for the tour.

## HEARING ON FREIGHT RATE INCREASE ENDS

WASHINGTON, June 12.—The interstate commerce commission today completed its hearings on the 15 per cent. freight rate increase by railroads of the country to become effective July 1.

With less than three weeks in which to make a decision, the commission estimated by shippers at \$200,000,000, the commission has before it to review hundreds of letters, telegrams and briefs as well as a great mass of testimony, arguments and statistics.

Today's arguments were opened by Charles Donnelly, chief counsel for the western railroads.

## MORE U. S. FORCES ARRIVE IN FRANCE

BOULOGNE, June 12.—Another installment of the vanguard of the American army has arrived in France in the form of 160 ambulance drivers and 75 nurses. Preceded by a British military band, they marched through the streets to their quarters, amid the enthusiastic cheers of the populace.

## JOHN'S DEATH OF REDMOND

Boston Central Branch of United Irish League Adopts Resolutions of Sympathy—Sends Message to Brother BOSTON, June 12.—Resolutions of sympathy on the death of Maj. William H. K. Redmond, and a cablegram to John E. Redmond expressing deep sorrow were the actions taken at a special meeting of the Boston Central Branch of the United Irish League yesterday.

Dr. Henry V. McLaughlin called the meeting to order. All the members present were personal friends of Major Redmond and they had worked with him to make his tours here a success. It was voted to send a cablegram to Mr. Redmond right away, and then to mail resolutions. Michael J. Jordan, national secretary of the league, was chosen to draw up the resolutions.

## SHUT OFF GAS IN PARIS

PARIS, June 12.—The decree ordering the shutting off of gas for thirteen hours daily has caused consternation in Paris where many industries are dependent on gas for light and power. It is now announced, however, that the measure will not be applied to the capital and suburbs and it is considered doubtful if it will be applied anywhere. The newspapers point out so many exceptions that will have to be made that the application of the decree appears impossible.

It is understood that the order will be discussed at a cabinet meeting today.

## 107 MEN TAKEN FROM SPECULATOR MINE

BUTTE, Mont., June 12.—Work in the Granite mountain and Speculator mines of the North Butte Co., which were swept by fire last Friday, had progressed to such an extent today that it was thought possible that every foot of the company's properties except those below the 2800 foot level, which have been flooded with water will have been explored before nightfall. Nineteen more bodies were recovered last night, making a total of 107 taken from the mine thus far.

### AMUSEMENT NOTES

The following notices are from the press agents of the theatres mentioned.

#### KEITH'S THEATRE

"The Girl Philippa" and "The Barricade" constitute the attraction for the first half of the week at the B. F. Keith theatre, and you can take it from your Uncle Dudley that it's some attraction. There are two wonderful pictures, and the bill opened yesterday to large audiences, despite the fact that the weather was anything but propitious.

The basis of the story in connection with "The Girl Philippa" concerns the theft of drawings for the famous Harkness shell which was designed in the United States, but which has been sold to the British government. It is peculiarly interesting and apropos at this time when Secretary Daniels is charging that a spy or traitor has access to the confidential files of the navy department and that the main papers and drawings have been stolen.

The shell in the story of "The Girl Philippa" will revolutionize high explosive warfare, once it can be manufactured, and the German are exceedingly desirous of getting hold of it.

As a matter of fact they do get the drawings and start back to Europe with them. But, so well informed are the British of their best men, Harkness and Gray, on the same boat. Each set is aware of the other, and it may be imagined that there is some talk of working the plans from failing into the hands of the Englishman.

In answer for this is just prior to the fall of that city—the Englishmen heard the Germans in their den, taking the plans and following instructions start for the little town of Auzone, in France. The Cafe Biribi is the place set for their meeting other Britishers.

Each Englishman has one plan for the plans for the shell, so that if anything happens to one, the plans can be of no use to the German who gets them.

Miss Stewart has much of life in her work. In fact, there isn't a lagging moment in the entire production. It all ends well, that is, it ends with a marriage, but the Germans are shown attacking the pretty town of Auzone, and the fighting in the streets is wonderfully realistic.

The second feature is "The Barricade," in which Mabel Taliaferro is starred. It is a story of bank defalcation, and of a marriage on the part of the woman to get even with the man she believes has wrecked her life.

This didn't come out until the very last scenes. It is a picture of tension, and although the cast is not a large one, it is thoroughly competent.

The highly interesting Pathe pictures are also shown at the opening of the program. They hold many views from all parts of the world.

This bill will be presented today and tomorrow and Thursday "The Promise" and "Babette" will be the two features.

**MERRIMACK SQUARE THEATRE**

But a few performances remain of the great spectacular production, "The Whip," which is being presented on the first three days of this week, due to the many requests received from those who were unable to see it when it was presented at this theatre recently. The closing performance Wednesday evening will mark the completion of this special engagement of this picture which shows with thrilling scenes which hold the audience spellbound and breathless, especially the great and actual train collision scene and the race track scene. A film of great interest which will also be shown at this theatre today and tomorrow only is the special movie of the recent high school holiday events at Spaulding park. This picture was taken by the management of the Merrimack Square theatre because of its great local interest, much of which was evidenced by the audiences at this theatre yesterday afternoon and evenings at the initial showings of this film. The concluding numbers on this big bill are the Pictographs, a comedy and other plays. A special feature of the Wednesday matinee only will be the showing of the latest episode of "Patria," starring Mrs. Vernon Castle.

## RADICAL LEADS SOLDIERS IN SONG BROWN DETERMINED TO OPEN COOK WELLS

Techejze, president of the soldiers' and workmen's council of Russia, is here shown leading the soldiers in the hymn of new Russia, the new government's national anthem. He is Russia's extreme radical and is one of the biggest figures in the new government. He has called on the Americans to end the war.

"The Girl Philippa enters the story at this time. She is the cashier at the Cafe Biribi, and an American artist, Warner, who is studying in the delightful region, is much infatuated with her. The Girl Philippa is working for the international spy Wilfred, a part admirably played by Anders Randolf, however, is true to nobody—he sells secrets to the highest bidder.

Now Philippa, once she sees the bad strain in Wilfred, leaves him, and goes to her American artist. There she gets acquainted with Harkness and Gray, the British spies, although she does not know the parts they are playing. From this time on Philippa does marriage, but the Germans are shown papers which show that she is, in reality, the daughter of a noble family, but that she was kidnapped for ransom by Wilfred.

Miss Stewart has much of life in her work. In fact, there isn't a lagging moment in the entire production. It all ends well, that is, it ends with a marriage, but the Germans are shown attacking the pretty town of Auzone, and the fighting in the streets is wonderfully realistic.

## BROWN DETERMINED TO OPEN COOK WELLS

The Cook wells are now ready to be set in operation, so stated Commissioner Brown this morning. The wells were cleaned yesterday, the pumps being in operation for two hours, pumping 166,000 gallons of water into the brook. Mr. Brown stated, this morning he will get the wells going as soon as there is a demand for it, providing he can get the necessary coal. In order to ascertain the cost of operating the wells and the amount of coal needed, Mr. Brown had an estimate prepared by Supt. Thomas of the water department. Supt. Robert J. Thomas' estimate of the cost of operating the Cook wells on the basis of 3,000,000 gallons of water per day touches every point of expenditure, such as labor and fuel. He figures that seven tons of coal will be used every 24 hours on the basis of 225 gallons of water being pumped with the burning of one pound of coal. Assuming that coal is \$10.75 a ton, this first cost per day equals \$75.25. In addition to that 50 cents a day is allowed for oil, packing and waste.

Getting to the matter of labor, he makes allowance for the employment of seven men: Three engineers at \$4 per day, three firemen at \$3.50 per day, and one coal wheeler at \$2.50 per day. The labor cost therefore is \$75.25 a day, which, added to the \$75.25 a day previously mentioned, brings the per diem cost exactly \$150.

This figure of \$33.33 for the pumping of 1,000,000 gallons of water, by reducing the quantity pumped per day there would, of course, be a daily reduction on the total cost of operating, but nevertheless there would be an increased cost per million gallons. The coal on hand at the present time is estimated at 160 tons, which is about enough for 14 days.

Mr. Thomas further itemizes the cost of starting the Cook wells plant and there has been expended up to date for labor \$21.25 for the past three days; 1500 pounds of coal have been used and this, with the wood for starting the fire, totals \$3.20, making a total cost for starting the plant of \$24.45. On Monday the pumps ran two hours and 166,000 gallons of water were pumped into the brook.

**Solicitor Replies to Mayor**

The following letter, which has to do with the bill presented by Cons. William L. Crowley for \$2.50 for the serving of subpoenas and witness fees, which the mayor refused to approve, was sent to him by the City Solicitor William L. Regan:

June 12, 1917.

Hon. James E. O'Donnell, Mayor of the City of Lowell, Mass.

Dear Sir:

In re: bill of William L. Crowley.

Yours of the 11th in the above matter, received and contents of same noted.

Unquestionably, when you wrote the communication you labored under a misapprehension of the facts. This bill is not against the law department, and an examination of the same demonstrates that it is charged against the commissioners' fund.

I appreciate the soundness of your position, but no city employee should be paid witness fees for testifying at a hearing before the municipal council, and believe myself, that this should be the rule. In this matter, however, a situation arose which made an exception to the rule necessary, and had you inquired the facts prior to preparing the bill to me, it is my opinion that you would have acquiesced in the same.

Sincerely yours,

William D. Regan,

City Solicitor.

**ARREST 11 WHO FAILED TO REGISTER JUNE 5**

NEW YORK, June 12.—Eleven men were arrested and 28 others were detained by the police after a mass meeting held in a Harlem hall last night by the Non-Conscription league. The men arrested had no military registration cards and declared flatly that they did not intend to register. Those detained were unable to produce registration cards and apparently were of military age.

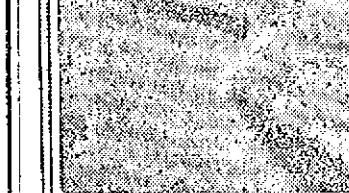

The arrests were made by Thomas E. McCarthy, United States marshal, who declared that "no great harm would have been done" if all the persons there had been arrested.

"This is no time for a meeting of this kind," asserted Marshal McCarthy. "We will prevent such meetings in the future. Any man who attends such a meeting will be liable to search and must show his registration card. I do not look upon them as friends of the United States." He told Emma Goldman tonight that if she held another meeting where she made unpatriotic speeches she would be arrested if I had to arrest her myself.

In the speech she made at the meeting, Miss Goldman referred to "ginger-bread soldiers" as "bums who are not worthy of the respect of decent men and women." She seemed to think even less of members of the home guard. Her declarations were cheered by a hundred ununiformed policemen were on guard outside the hall.

Dozens of detectives were scattered through the crowd. Thirty other officers were stationed on the roofs of nearby buildings. Police automobiles, equipped with searchlights, were driven back and forth through neighboring streets. A crowd estimated at 5000, mostly foreigners, had gathered to attend the meeting, but all doors of the small hall were closed by the police when all the seats had been filled. The

**MITCHELL MAY BE NEW "MIRACLE MAN" IN NATIONAL LEAGUE RACE**

CHICAGO, June 12.—National league fans here are proclaiming Fred Mitchell, manager of the Cubs, as another George Stallings. When the race in the parent league opened the dopesters didn't give the Cubs a look in. On paper the team didn't look very good. Outside of one or two players there weren't any bright stars. Mitchell went to work, however, and he has welded a team that

today looks like one of the most formidable in either league. The team gradually is climbing the percentage column, and many of the enthusiasts here are saying that before Independence day rolls around the Cubs will lead the National race. **CHICAGO CITY COUNCIL AGAINST CRITICISM OF RIGHTEOUSNESS OF THE DECLARATION OF WAR**

CHICAGO, June 12.—The city council adopted an address last night declaring against criticism of the righteousness of the declaration of a state of war by the United States and calling upon all citizens to support the cause of our common country by word and deed. Eight members of the council voted against the address, sixty voting for it.

After referring to the existence of a state of war, the address says: "The true, loyal citizen will not, in time of war, debate the righteousness of his country's cause, and the duty, if there be such, shall not be heard."

**SOCIAL AND FRATERNAL**

The regular meeting of Gen. Adolbert Ames camp, Spanish War Veterans, was held last night in Memorial hall. During the meeting it was voted to subscribe for 5000 worth of Liberty bonds. Invitations to attend flag day exercises were accepted from the Mary Smith tent, the J. A. Garfield circle and the Lowell lodge of Elks. Two applications for membership were received and one new member was mustered in. Comrade Bagley of the camp has again secured his loyalty to the flag by enlisting as a member of Company G, Sixth Massachusetts regiment. On Wednesday night of this week, members of the Company 60, Spanish War Veterans, of the State Guard will be mustered in at the armory.

# MAYOR ISSUES FLAG DAY PROCLAMATION

Thursday, June 14, the day after tomorrow, will be Flag day and as the flag of our country this year stands for more than ever before, citizens are exhorted to join in making Flag day a great event, and the Mayor, James E. O'Donnell, has issued the following proclamation for the Lowell Flag day observance:

PROCLAMATION  
Thursday, June 14, will mark the 140th anniversary of the adoption of the Stars and Stripes, as the Flag of our country.  
Public recognition of Flag day as a national anniversary is each year becoming more general, and, as this year, 1917, the Flag of our country stands for more than ever before all good citizens are urged in making this day a great event.  
Lowell Lodge of Elks, which is obligated by its ritual to observe Flag day with special exercises, is invited to hold a public gathering on the South common this year, which will be preceded by a street parade.  
As mayor of Lowell and as an Elk, I call upon all citizens to observe the observance of Flag day, next Thursday, if possible, by attending the exercises on the South common, or by displaying the colors or attending patriotic exercises.  
Let us all bring the Stars and Stripes to the breeze on June 14. May it greet the rising and salute the setting sun, and float all day long from every building, public or private, however humble, throughout the city.

James E. O'Donnell,  
Mayor of Lowell.

**Paying Suspended Officials**  
The following opinion was received from City Solicitor Regan in regard to the payment of back salary to Robert J. Thomas, Edward H. Foye and Andrew J. Stiles:

June 12, 1917.  
To the Municipal Council, Lowell, Mass., Gentlemen: In re: demands for payment of salary by Robert J. Thomas, Edward H. Foye, and Andrew J. Stiles, referred to the law department, beg to say that Messrs. Thomas and Foye are entitled to the salary of the offices of superintendent of water works and purchasing agent, respectively, up to May 25, 1917; that Mr. Stiles is entitled to salary up to the date of his suspension. These amounts, I have not been able to ascertain, on the fact that I did not receive the matters referred until today. In the matter of Mr. Thomas' salary, as there was no incumbent of his office and no salary drawn against his position, it is unnecessary to make any specific appropriation for the same. On the other two, I would suggest that the amounts due the suspended officials be charged to the commissioners' fund.

Sincerely yours,  
William D. Regan,  
City Solicitor.

**The Contagious Hospital**  
It was voted to alter the contract for the construction of the addition to the Pawtucket school so as to include a fire alarm system of \$10, as there was no provisions in the contract for such a system.

Contracts for the painting, heating, plumbing and gas piping of the administration building, the new isolation hospital were approved.

Mr. Warnock asked authority to issue writs to compel the contractor to remove buildings at once or have him forfeit his bond, but the matter was referred to the city solicitor with instructions to prepare an order to compel Mr. Connor to do his work, the order to be presented at the next meeting of the council.

Mr. Warnock said Mr. Connor's bid for the plastering of the buildings was \$300 lower than any other contractor and that is the reason he was awarded the contract. He said two of the buildings have been ready for plastering for the past two weeks, but Mr. Connor is waiting until the third is ready before starting on the job and other contractors are being retarded in their work.

Mr. Morse—"Is he delaying the carpenter?"

Mr. Warnock—"Yes, and he has been for the past two weeks, and I am not going to shoulder any responsibility for any delay in the work."

Mr. Morse—"I don't want to myself, but I would rather wait and see if he will pay any attention to the architect."

Mr. Connor and myself have been concerned in this matter, and the concerned friendship is to be cut out."

Mayor O'Donnell—"The contractor should be made to live up to his contract, and I believe the city solicitor is the party who should draw an order to that effect."

Mr. Warnock—"The contractor at the hospital has stated to me that unless the plastering is done very quickly he will be forced to lay off some of his men."

Mayor O'Donnell—"I believe in burying the work, but I don't want to get the city into any litigation." It was then voted to have the solicitor prepare an order for Friday.

An order for the installing of two electric lights in Anderson street and two in Nelson street was passed. Another order for the installing of electric lights in Lawrence street between Epping and Borylton street was also passed, and it was voted to remove seven gas lights in the district.

## Beaver Brook Bridge

Mr. Morse brought up the matter of the wooden bridge across Beaver Brook and he called upon Jackson Palmer of the waterways committee to make a statement in reference to it.

Palmer told of how the bridge was constructed by a land company, which opened Rosemont terrace, and said the structure was being used by numerous people who reside on the terrace on the Shawmut side of the Brook, and he said to reach Lakewood avenue, he said the bridge is a menace to public safety and he recommended it be torn down. It was voted to refer the matter to the

## mayor, requesting His Honor to make report at Friday's meeting.

Sewer assessments for the following streets were approved: Acton, Anderson, Mr. Vernon, Columbia, Corbett, Colonial, Avenue, and Stoddard, Devine, Appleton, Eleventh, Farmland road, Lupine road, Holyrood avenue, Sixth avenue, Spring avenue, Winthrop avenue, Woburn, Billerica and Bolton.

## Waterways Inspector

Mr. Palmer was again permitted to speak, and this time he referred to the work done by the waterways committee since its appointment 18 months ago and said the committee would soon complete its work. He recommended that an inspector of waterways, ferries and lifesaving apparatus be appointed, and that the salary be fixed by the council. The matter was referred to the mayor with the request that His Honor report at the next meeting. Former Councilman Frank Puffer, who was present at the meeting, was elected a councilman in the event of a new position being created he would be a candidate for it.

At this point the meeting adjourned until Friday morning at 10 o'clock, at which time the Foye hearing will be resumed.

## CONFERENCE REPORT ON WAR BUDGET BILL

WASHINGTON, June 12.—A second conference report on the \$3,251,000,000 war budget bill with the disputed appropriation of \$3,000,000 for purchase of the old Jamestown position site on the Hampton Roads as a naval base and training station, was up for consideration in the house today. Indications were that the house would modify its former action in rejecting the report because of opposition to the expenditure of not more than \$1,400,000 for a naval base on Chesapeake Bay, without specifying a site.

This modification was virtually agreed to by the house naval committee after an evening conference with Secretary Daniels yesterday. The senate insisted on the Jamestown provision.

**Designs of Bonds**  
WASHINGTON, June 12.—Likenesses of presidents from Washington to McKinley will grace the new Liberty bonds which will be engraved in blue, green, orange, red, brown, olive and purple, according to denomination.

Designs of the bonds have been completed and the bureau of engraving and printing is working day and night, turning them off the presses.  
Portraits and colors of the bonds will be as follows: \$50, Jefferson, blue; \$100, Jackson, blue; \$500, Washington, orange; \$1000, Lincoln, carmine; \$5000, Monroe, green; \$10,000, Cleveland, blue; \$50,000, McKinley, carmine; \$100,000, Grant, orange.

The title of the issue, "Liberty Loan of 1917," will appear on the upper border of each bond and the denomination of the four corners and on the lower border. The face will be printed in black with an overprinting of the denomination, number, seal, and dates in the color selected for the denomination.

The right side of each bond will appear the vignette of Bartholdi's Statue of Liberty in New York harbor, on the left side the portrait of one of the presidents.  
The bonds will be 13 inches long and six inches wide, the established size of previous issues of bonds, and will be printed on distinctive paper with silk rib.

Coupon bonds will have ornamental engraving on the back and registered bonds will carry a blank for assignments. Three sheets of interest coupons—60 coupons in all—will be attached to the coupon bonds.

Engraving on the back of coupon bonds will show on the right the vignette of the Goddess of Freedom, from Crawford's figure on the dome of the United States capitol and on the left an ornamental panel with an eagle in the center.

The backs will vary in color with each denomination as follows: \$50, brown; \$100, orange; \$500, light blue; \$1000, green; \$5000, red; \$10,000, brown; \$50,000, olive, and \$100,000, dark blue.

One of the islanders pointed out today that if the nation would follow "the sturdy old whalers here" the Liberty Loan would be quickly over-subscribed.

**NEWS OF THE DAY IN POLICE COURT**

Theodore Hamblitt, a young man who resides in Lawrence, was charged in police court today with violating the automobile law by going away without giving his name, address, etc., after striking a dog in Neesmith street.

Counsel for Hamblitt wanted to enter a plea of nolo because the owner of the dog, which was killed as a result of being struck by the machine, did not care about pressing the matter. But Deputy Doway would not agree to such a plea.

Therefore a plea of guilty was entered and after the court heard the story placed the case on file. According to the story told, an automobile operated by Hamblitt struck a dog belonging to William Green of Wyman street, in Neesmith street on May 24th and the canine died as a result of injuries received.

**Given His Choice**  
Judge Enright gave Miriam Zdrojewski his choice of supporting his wife or going to the house of correction for five months and he of the long name decided that to support his wife and have his freedom this summer would be better than being confined. The man's wife said that while she worked every day he worked when he felt like it. He abused her when he felt like it. He was given a suspended sentence of five months in the house of correction.

**Afraid of Husband**  
Mrs. Oscar N. Jones said that she was afraid of her husband. She had him arrested for non-support of their child, but said she did not want any money

from him if he would keep away from her. She said she had to leave him several weeks ago because he had threatened her and yesterday he followed her to work and again threatened her. Jones made all kinds of promises to do better in the future and after his wife said she would give him a chance if he would keep away from her, he was placed on probation for one month.

**Refused to Pay Fare**  
Philip Goulding, who belongs in Boston, but who had been working in Woodstock, N. H., while under the influence of liquor last night got on a local street car and refused to pay his fare. In court this morning he did not seem to know much about what happened last night and the court gave him ten days in jail to see if he can refresh his memory.

**Tore Officer's Clothes**  
Daniel J. Murphy got drunk last night in the vicinity of Liberty square and when Patrolman Goggin was summoned he tried to quiet the man but was unable to do so and while placing Murphy under arrest the latter tore the officer's clothing. The case against Murphy was continued until tomorrow morning for sentence.

**Drunken Offenders**  
Mortimer Sullivan, charged with drunkenness, was sent to jail until Saturday.

Seventeen persons arrested for drunkenness were released by the probation officer before the opening of court.

The local evening newspaper is the paper that reaches the home when the whole family is there to read it. The license right away and about half an hour afterwards when he appeared with the necessary certificate the case was placed on file.

**Had Unlicensed Dog**  
Frank Sabola had a dog that was unlicensed. He knew he should have had it licensed, but had been putting it off until complaints had been made which resulted in his being brought into court. He said he would get the license right away and about half an

hour afterwards when he appeared with the necessary certificate the case was placed on file.

**Are You Prepared for FLAG DAY?**

Are you prepared? June 14th is flag day, the day everyone should show their colors and let Old Glory fly in the breeze. Flag day possesses a peculiar significance this year. For the first time in nineteen years the United States, at war on Flag Day, faces a European country, and our opponent now is not Spain, but a combination of nations which includes the strongest military power on earth. Many of our boys will soon go across the water to foreign shores to fight. What better can we do who are going to stay home than unfurl the good old flag to the breeze and show your patriotism? Good assortment of sizes and styles. Third Floor.

## MAJOR REDMOND'S DEATH

The news of the death of Major William H. K. Redmond, M. P., at the front in France, has caused widespread regret among his hosts of friends in every quarter of the globe. His death seems to have occurred at the psychological moment to be of most benefit to the cause of Ireland. This was indicated by the high tribute paid him by Premier George and ex-Premier Asquith, the former stating that Mr. Redmond was above all Irish and felt the war was Ireland's great opportunity for winning liberty for herself by fighting side by side with Great Britain in the world struggle for freedom.

But most surprising of all was the statement made by Sir Edward Carson, until recently the bitterest enemy of the home rule cause. "He said he had noted the premier's statement that Mr. Redmond when wounded was tenderly cared for on the battlefield by Unionists from Ulster. 'I in the trenches they could fight side by side in the common cause of liberty,' added the speaker, 'certainly, so far as I am concerned, I will do all in my power to assist in some solution of the Irish question which will meet the ideals of liberty of all parties in Ireland.'"

Thus in giving up his life in the battle of Messines, Major Redmond rendered a signal service to his country as here acknowledged by one of its erstwhile enemies.

No man was willing to make any greater sacrifice for Ireland than was Major Redmond. Like the brilliant Thomas Kettle killed over a year ago, he believed that in espousing the cause of the Entente Allies, he served not only the cause of Ireland but the cause of world democracy as well and also that of poor, downtrodden Belgium. He enlisted early in the war believing that if Irishmen cast themselves into the conflict, they would thus overcome the only remaining opposition to home rule, to wit, that of Ulster. The Irishmen had good reason to believe this as after a long struggle the home rule bill had been placed upon the statute books and the time of its taking effect was then merely postponed. The situation changed later, but Major Redmond still believed that the government would do justice to Ireland. On a couple of occasions he crossed the channel from France to take part in debates on the Irish question and his appeal made a deep impression. In common with his brother, Hon. John F. Redmond, the ill-fated soldier believed that the cause of the Allies was one in the interest of world freedom and democracy. Had he felt otherwise he would have denounced it as he did the war against the Boers—"one of robbery and hideous massacre." Although Major Redmond's death will remove an able man from the ranks of the Irish Nationalist party, it must certainly appeal to the government as a proof of what Irishmen would do in a just cause if they or their country were justly treated.

That Redmond has not died in vain and that he was right in his view of service in the war was proved by the speeches of the ministers in parliament in commenting upon his death. Representatives of all parties are now entering the Irish convention with an honest purpose to unite in framing a constitution for Ireland that as Mr. Carson states will meet the ideals of Irish liberty.

## LIBERTY BOND APPEAL

New England has fallen behind in its estimated quota of the Liberty Bond to the amount of \$155,700,000. Lowell being a New England city must share part of this responsibility. There are but three days left in which to invest. During this time an extraordinary effort should be made to roll up an amount that will do credit to our city as compared with other cities.

It is true that a factory city is at a disadvantage as compared with cities like Springfield and Worcester in not having so many moneyed men. But the factories have begun to do their duty and if a campaign be organized in each, there is no doubt that thousands of operatives who have the money to spare, will invest in the "Liberty Bonds."

The possession of these in after years when the war is over will be a badge of honor and a proof of patriotism for those who could not go to the front. It is, moreover, the belief of many men of good judgment in such matters that these Liberty Bonds in a few years will be selling at a premium, so anxious will be the people to have them ten or twenty years hence. It must be remembered also that the security is beyond all question the best on earth. The bonds are negotiable and they can be exchanged for bonds at a higher rate of interest if any such be issued later by the government. Hence there is no excuse for holding back on this purchase with the expectation that other bonds will be issued on better terms. The Liberty Bond from the day of its purchase will be worth at least its face value in cash but there is a strong probability, as already stated, that it will go to a premium. Thus whether viewed from the cold calculating view of an investment or from the

patriotic obligation to assist the government and to uphold the record of our city, the purchase of a Liberty Bond is the first duty of every citizen who has the money.

Therefore, let the factories, the stores, the city employees and every influential agency in Lowell lend a hand in putting Lowell where she should stand in this Liberty Bond purchase. Whatever is to be done, must be done quickly as the time for sale expires next Friday noon.

## PUT THE BAN ON IDLERS

Here's a good idea from the pen of Samuel Gompers, president of the American Federation of Labor.

Abolish "servitors, valets and flunkies," says Gompers in an editorial in the American Federationist.

The labor chief refuses to recognize any shortage of labor while there are thousands of men doing for others what those others ought to do for themselves.

Mr. Gompers points out that this servitor class does nothing except perform personal service for wealthy men, and that in this time of war every person ought to be a self-respecting and productive member of the community.

This is a good time for every person to get into productive work. No idler can have any place in the scheme of things when the nation is meeting the supreme test of war.

## MEANING OF "BONE DRY"

Editor Sun: Will you please inform me who invented "bone dry" and what it means? State also whether it is in any way connected with bone head. By so doing you will much oblige,

Yours etc., J. F. F.

While some give William Jennings Bryan the credit of inventing "bone dry," we are of the opinion that it originated with the same man who invented "bone head." The former term is intended to bring on a thirst that prevents ossification, while the latter applies to a condition in which the ossification of the scapular periosteum, the concentric lamellae, the lacunae and the Haversian ducts, is already complete.

## LIQUOR ADVERTISING

The newspapers that have been in the habit of carrying liquor advertising are much concerned over the federal law which imposes a heavy penalty for any publication carrying a liquor advertisement into a prohibition state. The penalty is a fine of \$1000 and imprisonment for six months for the first offense and a year for each subsequent offense. Suppose a Lowell paper containing a liquor advertisement be sent into the state of Kansas, the publishers would be liable to conviction under this law. Such an arrangement does not bother The Sun, which has not accepted this special advertising for many years. The effect will be to stop all liquor advertising.

## CHARLIE AS A SOLDIER

When Charlie Chaplin gets in front of the Germans, he will change his wiggle. Instead of an assumed tremor of his underpinning, he will probably experience the reality. If the movie man could snap Charlie while trying to fire a rifle at the German lines, the facial expression of the comedian would be a great attraction for some of the picture houses. If Charlie returns, he will undoubtedly perform some great stunts that will make the world laugh. But despite his absence there will remain a goodly number of versatile "slackers" who will impersonate him.

## NOT A RICH MAN'S WAR

The Socialist claim that this is a rich man's war and that the government is working against true democracy is sheer bosh. The proposition to arm the Socialists as the "home guard" and allow them to elect their own officers is a rather dubious one, coming as it does from an organization that is avowedly working for the establishment of the co-operative commonwealth.

The state of Oregon sends Judge Charles S. McNary to the United States senate as successor to Senator Lane. The peculiar thing about the change is that although a republican, the new senator is a staunch supporter of President Wilson's war policy.

While Senator Lane, who was a democrat, opposed the president's war policy, Senator McNary, although a young man, had been a member of the supreme court of his state. He is evidently qualified to make a useful member of the senate.

The man who represented himself as a Canadian soldier and swindled various parties on pretense of being the custodian of the remains of the ashes of dead soldiers has been arrested. The officer who got him without a substantial tip, should be highly commended. Next to the kidnapper, this species of thief was decidedly one of the most heartless and conscienceless.

The Canadian Kilties should make a success of their recruiting campaign in New England. There are thousands of eligible reservists in all the large cities, Lowell among the number.

## How Jim Crustible Won

We have always known Jim Crustible, who ran the store at 720 Commercial, was one of the shrewdest business men of this town. The Emporia (Kan.) Gazette. You never could tell Jim anything, and when he figured it out, it was so, and that was to him yesterday about a theory he had two years ago, and Jim says he's working like a charm.

Jim had a notion that it was costing him too much money to do business, that his overhead was too heavy, so he says to himself, "I'll just have \$17.50 a month by cutting out my advertising." And it did certainly look reasonable. There was \$17.50 every month in the year, and sometimes \$25 during the holidays or in the fall when trade was brisk, and in the course of the year it amounted to two or three hundred dollars. And Jim's head was working like a tack when he concluded that everyone knew his place of business. Of course, why every Saturday the place was crowded with farmers, and dozens of young fellows in town dropped in every day to buy a little something and chat with Jim.

So he quit advertising. And—that's the funny thing about it—Jim's scheme worked. It really didn't cost old Jim so much money to do business. The books showed that he saved the two hundred a year and more by cutting out advertising. And at the end of the year he found where he could get along without one of his clerks. The farmers didn't bother him so much as they did, and his own trade wasn't forever in the papers. So he dropped a clerk and saved that five hundred. There was seven or eight hundred dollars he saved—and at Jim Crustible was certainly proud of his head piece, the way he had calculated it all out. You certainly can't tell Jim anything about business. He is the man who put the corner in commerce—originally.

## LOWELL MEN NOT IN MINE EXPLOSION

After living in suspense and excitement for two days, several Lowell families were greatly relieved yesterday when a telegram arrived here from Butte, Mont., announcing "All safe; not working in that mine."

When the first report of the fire that entombed hundreds of men in the Speculator shaft of the North Butte Mining Co. was received in Lowell and announced on The Sun bulletin, a young man rushed into the office seeking information about the disaster. He said that his brother and about a dozen other Lowell men were working in Butte and he thought they were in that mine.

John Shannon, the well known Bay State street railway motorman, was the man who sought the information. The early reports of the disaster were very meagre and did not contain any names of the victims, and hence were of little help to Mr. Shannon. He said his brother Philip, when last heard from was living in the city of Butte, and when he told the writer that he had his address he was advised to send a wire direct to his brother's home there. This he did, but a despatch came back that Philip Shannon was unknown there. He then met the relatives of several of the other former Lowell men who were out there, and they jointly decided to communicate with the chief of police at Butte. Several telegrams were sent, and while all news was awaited it was not until late yesterday afternoon that the good news "All safe" was received. Mr. Shannon came into The Sun office and after showing the message and thanking the news service, his little assistance departed greatly relieved and happy that his brother and other Lowellites were not victims of the terrible disaster.

New York 8, Chicago 2  
CHICAGO, June 12.—Erratic fielding by Chicago coupled with bunched hits gave New York an easy victory over Chicago yesterday, 8 to 2. Benton was hit hard but was given perfect support. Both Kaut and Fletcher drove the ball into the left field bleachers for home runs. The score:

ST. LOUIS 5, Philadelphia 4  
ST. LOUIS, Mo., June 12.—Gonzales stole home in the fifteenth with the run that gave St. Louis victory over Philadelphia yesterday, 5 to 4. In the fifteenth Gonzales doubled and took third when Miller was thrown out. Hornsby was purposely passed and stole second. As Oeschger wound up to pitch to Cruise, Gonzales dashed home with the winning run. Philadelphia got four runs in the first on two singles, a stolen base, two bases on balls, a sacrifice hit, a fielder's choice and Long's error. St. Louis tied the score in the sixth on two singles, a double and an error by Nicholson. Philadelphia got a man as far as third in the eighth, but thereafter only one player, McGuffigan, who replaced Bancroft, when he was hurt trying to tag J. Smith at second base in the ninth, reached first. The score:

JIMMIE O'DAY  
James D. Sunderland, of 52 Auburn street, a royal rooster for Pitts South Ends, has developed into a poet, and sends in the following lines on James O'Day, a former member of the South Ends, who recently joined the United States army.  
We never knew your real worth, Jim,  
until you went away  
You bet we miss you, Pal, every game  
we play;  
The pivot looks lonesome, things  
don't seem the same.  
No more do we hear Harper, that old  
familiar name.  
Though we lose you with regret, in  
your new game we wish you  
luck.  
The boys are all proud, Jim, to know  
you had the pluck.  
Though your old captain, Chick Dowd,  
wears that same old smile  
Both he and the boys are singing  
all the while:  
Turn back the universe and give us  
back O'Day.  
Unclear the hand of time when Jim-  
mie went away;  
Turn back those good old hours when  
Jim with us did play.  
Turn back the universe and bring back  
liarp O'Day.

COMPETITION SHOOT  
A competition shoot was held at the Dracut rifle range on Saturday by experts of the United States Cartridge Gun and Rifle clubs and good scores were made at the different ranges. The following were the high scores:  
James Doyle, 139 consecutive bullseyes out of 200 shots.  
William A. Mend, 157 consecutive bullseyes out of 200 shots.  
M. M. Pihl, 161 consecutive bullseyes out of 200 shots.  
M. Morrison, 151 consecutive bullseyes out of 200 shots.  
E. Hays, 157 consecutive bullseyes out of 200 shots.

HIGH SCHOOL GAME OFF  
The game between Lowell and Lawrence high schools, which was to have been played yesterday afternoon at Riverside park in Lawrence, was called on account of the weather. It was to have been the final game to be played by the local team, and Joe Donnan's boys were confident of victory. Efforts will be made to play the game later in the week. Efforts are also being made to play a postponed game with Lawrence Academy at Groton on Saturday, June 16.

LOWELL DRIVING CLUB  
The regular meeting of the Lowell Driving club was held last night at its quarters in Middlesex street, and it was voted to hold special races during Red Cross week, the proceeds of which will be given to the Red Cross. The program will be carried out on Saturday, June 23. An excellent program has also been arranged for July 4th.

# O. M. I. CADETS FORM MODEST FRENCHMAN NAVAL RESERVE "GOT" TWO SUBS

An important meeting of the O.M.I. Cadets will be held in their armory tonight at 7.30 o'clock. Plans for the annual military mass to be held next Sunday will be completed. The mass will be celebrated at 9 o'clock, and Rev. Denis A. Sullivan, O.M.I., chaplain and organizer of the Cadets, is anxious that every boy connected with the organization attends this service.

A feature this year will be the first public appearance of the naval reserve branch of the Cadets, which will be organized at tonight's meeting. The branch is open to all boys between the ages of 15 and 17 inclusive, and already a large number have signified their intentions of enrolling. The naval reserves will wear a special uniform, altogether different from the infantry, and it is expected that the new uniforms will be here before Sunday.

The Cadets will also talk over plans for the coming encampment, and regardless of weather conditions, Major Conroy expects every member to be on hand tonight.

## BATTLING THE HIGH COST OF LIVING

A new attempt to lower the cost of living is to be launched in Lowell this week. The Bay State Distributing Co. of the South Boston Fish pier will have a carload of fish here every Thursday afternoon and Friday morning, the car being put on the siding of the railroad tracks at the corner of Western avenue and Fletcher street. The fish is guaranteed to be fresh caught, not over 24 to 36 hours out of the water. The management desires to do away with some of the exorbitant prices charged for sea food, so will sell the fish right from the barrel, it therefore being necessary to bring baskets, because paper is too big an item. Prices and assortments will be announced in The Sun. The sales will be over at Friday noon. What is left over will be given to charitable institutions or the needy poor, providing the persons calling for it can show credentials from proper authorities.

FEDERATION OF CHURCHES  
The regular meeting of the Federation of churches was held last evening at the Y.M.C.A., but owing to the bad weather the attendance was small. The principal speaker of the evening was Rev. E. Tallmadge Root, secretary of the state federation, who spoke interestingly on federation work and answered several questions. The secretary was instructed to write to the Red Cross offering the support of the federation and it was voted to do everything possible for the assistance and comfort of the young soldiers when they are mobilized at Ayer. It is probable that in the fall, joint evangelistic campaigns will be held in all the churches of the city.

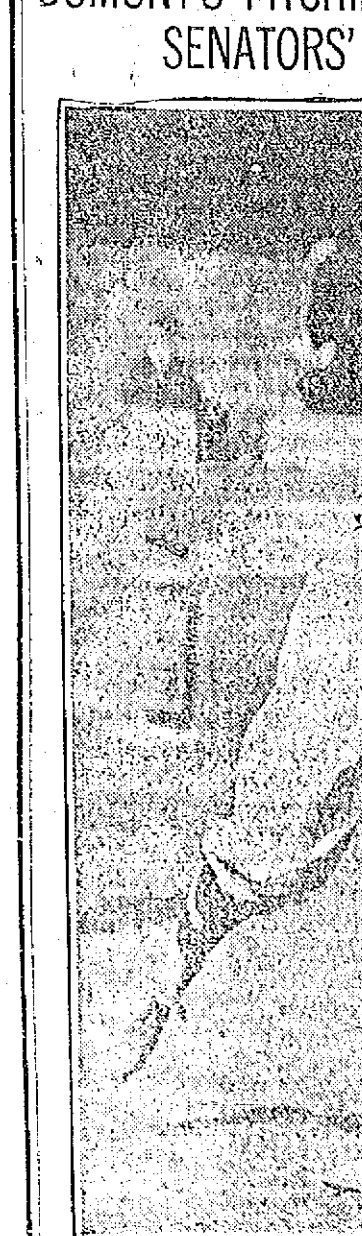

PULP WOOD  
Newfoundland Legislature Expected to Enact Law Permitting Export to the United States  
ST. JOHN'S, N. F., June 12.—The Newfoundland legislature, now in session, is expected to enact a law permitting export to the United States of a considerable quantity of pulp wood, cut in this colony since the outbreak of the war. The wood was intended for shipment to England and France, but because of the shortage of vessels its transfer to those countries has become impossible.

NORWEGIAN BARK SUNK  
CHRISTIANIA, June 12, via London.—The Norwegian bark Deveron, 1262 tons, has been sunk. Four men were lost, including one Canadian, and 12 men have been landed at Lerwick. The captain and another man were wounded. The Dagbladet reports that the Arctic cutter Sverra II, has been sunk. The crew was saved.

How many German submarines have been sunk since the outbreak of the war? Nobody knows, or if any one does he won't tell. But here is a modest French sailor who is credited with accounting for two of the submarines. He is Quartermaster Le Guenne, who was a recent visitor to

an American port on a French cargo ship, the name of which he requested should be withheld. He confessed reluctantly that the gun which he trains on enemy craft had spoken with deadly results upon two occasions. When asked for more details he said, half in English and half in French, that he and his comrades were in America to use their ears and not their mouths. Le Guenne is a Breton and is thirty-two years old.

Written by GEORGE GRAHAM RICE the Analysis and Forecast of the Shares Markets after a clear of hypothetical reasoning and pompous stock market jargon, follows the Road of Truth and measures by FIRST PRINCIPLES carefully-gathered available information that is ENTIRELY DEPENDABLE.

Too often in stock-market literature a glittering apparition passes for a reality. Belief is confused with knowledge. Stilted phrases pass for real savings. The Analysis and Forecast in the INDUSTRIAL AND MINING AGE avoids all of this and MUCH MORE that frequently contributes to make Wall Street market literature confusing, if not MISLEADING.

The INDUSTRIAL AND MINING AGE is justly famed among professional stock-market men and investors everywhere for its HARD-HEADED EXPERTNESS. Its gosses are geese—not swan, and it always tries to hit the nail on the head.

Besides the Analysis and Forecast of the shares market there appears in the current issue, of 12 pages, exhaustive analyses of the following active New York Stock Exchange and Curb stocks:

## RED CROSS CHAPTERS AND HOW MAINTAINED

As a result of the war inspired patriotism, the number of Red Cross chapters in the United States has more than doubled in the past three months. The number is now three times that of a year ago. More new chapters were formed in April than existed in the whole country last July. Twenty-six new chapters were organized in the month of February; 74 in the month of March, while April surpassed all records with 150 new chapters, a 51 per cent increase. This brought the total number of 562 chapters as against 212 at the first of the year.

Requests for chapters have come from every quarter of the country, and from Alaska, Porto Rico, Cuba and the Philippines.

Edgar H. Wells, director of chapters for the whole United States, is stationed at national headquarters, Washington, and is also acting as director of home division, which includes the District of Columbia, Maryland, Virginia and West Virginia. The northeastern division includes Maine, New Hampshire, Vermont, Massachusetts and Rhode Island, with John L. Saltonstall and other relatives will go to Washington to be present at the ceremony.

## ENGLAND READY TO REVISE TERMS

If Russia Wishes Will Take Up Earlier Agreement

Stands With Wilson for Freeing Races From Foreign Tyranny

LONDON, June 12.—In reply to the Russian government's request for a statement of the British war aims, Great Britain has forwarded to Petrograd a note in which is expressed hearty acceptance and approval of the principles which President Wilson laid down in his historic message to congress.

Since the British government believes, broadly speaking, that the agreements made from time to time with Britain's allies are conformable to these standards. In case, however, Russia wishes some modification of the agreements entered into with the old regime, Britain is ready with her allies to consider and, if necessary, revise them.

The purpose of Great Britain at the outset, says the note, was to defend the existence of the country and enforce respect for international agreements.

Since then there has been added that of "liberating populations oppressed by alien tyranny." The note bespeaks not only the liberation of Poland by Russia, but of that section of Poland within the dominions of the Germanic empires.

Following is the text of Great Britain's reply:

"In the proclamation to the Russian people included with the note it is said that free Russia does not purpose to dominate other peoples or take from them their national patrimony, or forcibly occupy foreign territory.

"In this sentiment the British government heartily concurs. They did not enter the war as a war of conquest; they are not continuing it for such objects. Their purpose at the outset was to defend the existence of their country and enforce respect for international engagements. To those objects have now been added that of liberating populations oppressed by alien tyranny.

"They heartily rejoice, therefore, that free Russia has announced her intention of liberating Poland, not only Poland ruled by the old Russian autocracy, but equally that within the dominion of the Germanic empires. In this enterprise the British democracy wish Russia Godspeed.

Seek to End Causes of War

"Beyond everything we must seek such settlement as will secure the happiness and contentment of peoples and take away all legitimate causes of future war.

"The British government heartily join with their Russian allies in their acceptance and approval of the principles laid down by President Wilson in his historic message to the American congress. These are the aims on which the British peoples are fighting. These are the principles by which their war policy is and will be guided.

"The British government believe that, broadly speaking, the agreements they have from time to time made with their allies are conformable to these standards, but if the Russian government so desire they are quite ready with their allies to examine and, if need be, to revise these agreements."

CARLOAD OF AUTO TIRES

"Another carload of tires which has been delayed en route has arrived for distribution by Myers. More tires were needed to accommodate the stock which includes every available size of tires and tubes. Now the tire and supply racks and shelves extend to the bridge on both sides of the store on Middlesex street. 'Myers for Tires' seems to be the slogan of the day here. It has been reported that John Y. Myers is working on a new invention, endeavoring to perfect a so-called floating tire, which would permit the auto driver to ride on water without extra equipment. But he will have to make them submergible ones should be blown out while sailing along."

**N.E. WANTS \$156,700,000 IN FOUR DAYS**

BOSTON, June 12.—At 1 o'clock yesterday afternoon less than half of New England's allotted quota of subscriptions to the Liberty Loan Bonds, which has been fixed at \$300,000,000, had been subscribed.

Exactly \$145,000,000 had at that time been recorded at the Federal Reserve bank of Boston, leaving \$156,700,000 to be raised before next Friday noon, when subscriptions close.

In order to bring about this result subscriptions for the remaining four business days, counting yesterday afternoon and Friday morning as half days, would have to come in from New England at the rate of \$33,175,000 a day, a sum far in excess of anything which has ever been turned in during the history of the campaign.

A meeting of the executive committee of the Federal Reserve bank of Boston yesterday it was voted to make a special discount rate of 5 1/2 per cent not to exceed 60 days, on the notes secured by Liberty Loan Bonds or United States certificates of indebtedness as collateral.

Mayor Curley has called a mass meet-

## BONAR LAW LOOKS FOR AID FROM RUSSIA

LONDON, June 12.—The government has declined to cancel the passport of James Ramsay MacDonald and Eric W. Jowett, who have been prevented from sailing for Petrograd to meet Russian socialist by the National Seamen's and Firemen's union.

The government explained that they were issued in response to the request of the Russian government upon the advice of Arthur Henderson, member of the war council and representative of labor, who is now in Russia, and the British ambassador, Sir George Buchanan.

A motion to adjourn the house of commons last night was defeated without division after Mr. Bonar Law, chancellor of the exchequer, had made the foregoing explanation.

Mr. Bonar Law pointed out the difficulty of guiding the Russian revolution or forcing its course, but said it was quite certain that there was a possibility of new Russia playing a more effective part, that ever played by Russia under the former czar.

Under proper guidance Russia could actually help the British government believed that the Russians realized freedom had to be fought for and that they intended to fight for it. Was it not clearly the government's duty to make easy the path for them?

MacDonald and Jowett had not been granted passports as representatives of any particular shade of opinion, but in response to the invitation of the Russian government and Ambassador Buchanan's advice that great harm would be done if passports were refused, and because Mr. Henderson, now in Russia, had expressed the opinion that in the interests of the war these two members should be allowed to go.

The position of MacDonald and Jowett is still uncertain. They are still in the port from which they intended to depart with George H. Roberts, the labor whip, who considered it inadvisable to proceed while others were detained by the Russian government and some of the other delegates sailed.

According to a Central News report MacDonald and Jowett have signed an acceptance of a guarantee that they would insist upon restitution to allied merchant seamen for the murder and destruction committed by German submarines, which would mean that they would withdraw their embargo. This, however, is not confirmed officially.

Wilson's Note Causes Sensation

THE HAGUE, via London, June 12.—President Wilson's note to Russia was published yesterday in Germany. The newspapers made no comment on it, but the German government has given instructions that comment should be postponed until today.

The document is reported to have caused a sensation in Germany.

## NEARING LAST CALL FOR LIBERTY LOAN

Lowell's share of the Liberty Loan is under-subscribed and an urgent call has been sent out for all to fall in line and help swell the total. If you have not subscribed as yet, now is the time and if you have subscribed think it over right away and see if you cannot subscribe for a little more. The time is short, there remaining but three more days in which to make application. Tonight at nine o'clock the church bells throughout the city will ring as a warning that the time limit on the Liberty Loan subscriptions has nearly expired, and will be a summons for every patriotic American citizen to do his share to help raise the money required. Last night at nine o'clock the bells of the Immaculate Conception and St. Anne's church pealed forth four strokes, indicating that but four days remain. Tonight three strokes will be sounded by practically all of the church bells of the city; tomorrow night there will be two strokes sounded, and on Thursday night, one. The nation-wide ringing of bells is the suggestion of Mrs. William G. McAdoo, wife of Secretary McAdoo and daughter of the president, the chairman of the women's Liberty Loan committee at Washington. In a telegram sent to P. L. Spaulding, president of the New England Telephone Co., Mrs. McAdoo's plan for

ringing the bells is outlined as follows: "The women's Liberty Loan committee is arranging through the services of the Federal Reserve banking districts to have all bells in the United States ring at 9 o'clock every night from Monday, June 11, to Thursday, June 14, inclusive. There will sound four bell strokes on Monday night, three on Tuesday, two on Wednesday and one on Thursday, the old Liberty bell to lead the Liberty Loan bell ringing. You can aid the committee immeasurably, particularly in those districts not at Federal Reserve centers, by communicating with civic and church authorities to have the bells rung. It is with deep appreciation of your telegram and of your representative's call that the women's Liberty Loan committee makes this request of you in the hope that it is feasible." The telegram received by Mr. Spaulding is signed by Theodore N. Vail.

All of the national banks and trust companies of the city have been asked to report to the local committee at the close of business on Wednesday just how much money has been subscribed. If the total amount apportioned to Lowell has not been raised at that time then the committee will make a last and strenuous appeal for citizens to come forward and add their mite. Yesterday many subscriptions came in, some from new subscribers and others from people who previously purchased bonds.

The Massachusetts Cotton mills sent an order into the Union National bank for \$100,000 additional as a subscription during the day and Humphrey O'Sullivan telephoned from Boston to state that he had put in \$25,000 in various banks, but he was prepared to subscribe still more if it were necessary. The American Hide & Leather Co., the American Woolen Co. and various other organizations have also subscribed for more bonds and the local physicians have signified their intention of subscribing for about \$25,000 worth.

Today the Boy Scouts distributed to the homes in this city and surrounding towns 10,000 appeals to the householders to do their duty by the Liberty bond. The United States Cartridge Co. total has attained the round figure of \$70,000 and is still growing. There are more than 1200 individual subscribers at this big industry. The International Steel and Ordnance found that 57 out of its 75 employees subscribed. It is hoped that at the close of the campaign a statement may be drawn up showing just how completely the industrial workers responded to this call.

## Good Health Not Found in Powder

The Plant Juice Man, at Dow's Drug Store, Tells the True Secrets of Health.

As health talks to women become more frequent both on the platform and in the newspapers, the mass of women are beginning to realize that the more cultivated have always known, namely, that good health cannot be found in the powder box or rouge pot. True, the externals of health may be found in that manner, but the basis of health lies deeper, and is just as easily obtained.

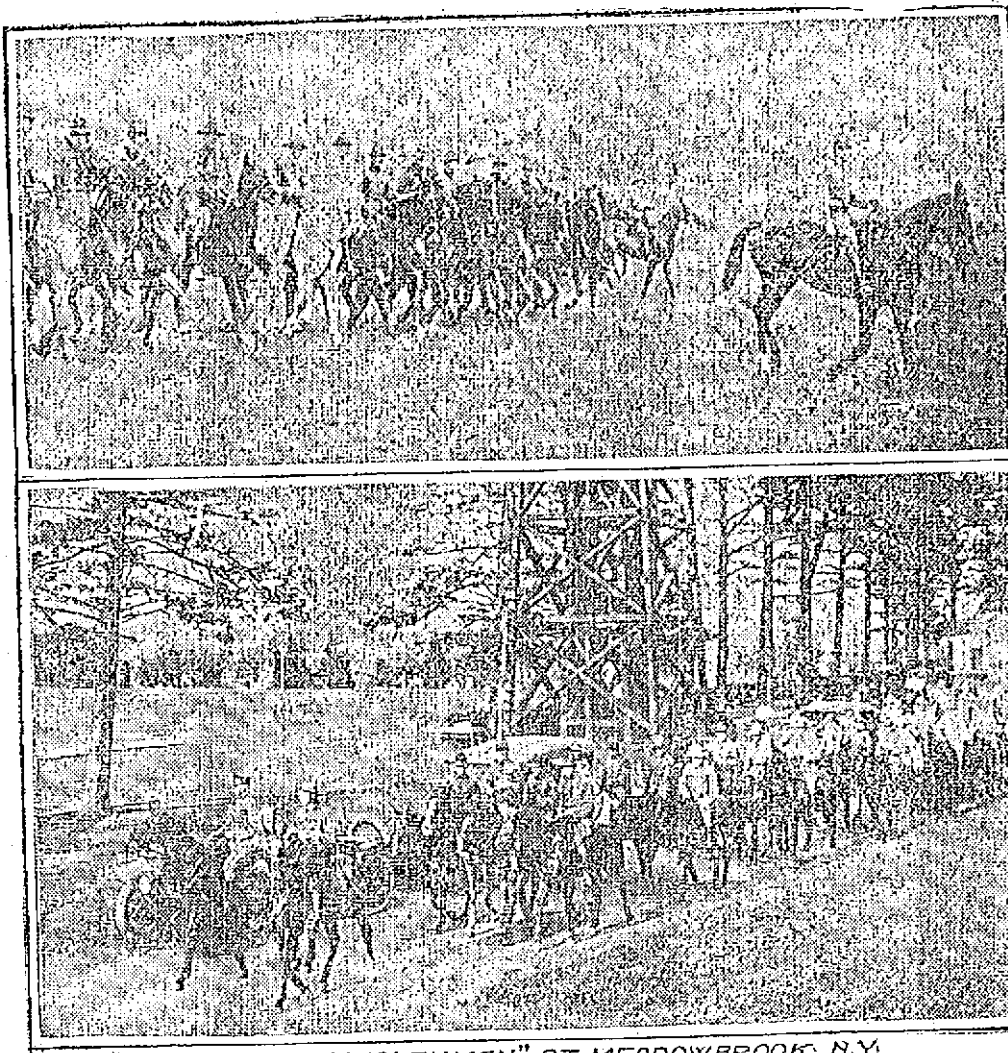

Many remedies may be found, but the best, in the opinion of most women, is Plant Juice, the new herbal stomach remedy—nature's own peerless preparation. Thousands of women have been restored to health by the use of this wonderful medicine, as their numerous testimonials show.

One of the latest is that of Mrs. Peter Braudt, who resides at No. 129 E. Merrimack St., a well known resident of Lowell, who has hosts of friends and acquaintances. She gave the following:

"I have been troubled with my stomach for the past four years and all the food that I ate fermented and formed gas in my stomach. I could not sleep at night on account of the pain, and felt at times as if I were going to die; I had no appetite whatever and could not eat the lightest kind of food; I was badly constipated, had headaches and was weak and completely run down; I was badly constipated and very nervous; I had read so much about Plant Juice that I decided I would try it. Now I am happy to say that I am feeling fine; I sleep well and have a fine appetite, the results have simply been marvelous in my case and I am glad to recommend this medicine to others. I cannot be too thankful for my recovery to health."

There are numerous symptoms of this trouble that Plant Juice can relieve. In fact any one of the following may denote affections of the stomach: indigestion, dyspepsia, bad breath, sick, throbbing headaches, poor circulation, night sweats, that tired feeling, costiveness, a coated tongue or a poor complexion. The Druggist's in Merrimack Square, Lowell, where he is daily meeting the local public, and introducing and explaining the merits of this remedy.

## HARD RIDING LEARNED AT POLO WILL BE USED IN UNCLE SAM'S SERVICE

"MILLIONAIRE CAVALRYMEN" AT MEADOWBROOK, N.Y.

Men of wealth preparing to "do their bit" for Uncle Sam are shown in the accompanying two pictures, which depict members of a "million-

aire cavalry company" drilling at the famous Meadowbrook club, on Long Island, N. Y. The squad is composed of millionaire polo players of the ex-

clusive Meadowbrook club, and they are put through hard drills in preparation for service in the army. tures planned for the ball. In the line with him will be Mayor and Mrs. James E. O'Donnell, Gen. and Mrs. James E. O'Donnell, Gen. and Mrs. Gardner W. Pearson, Gen. and Mrs. Butler Ames, and the officers and wives of the battery, as well as the pastresses of the dance and other guests.

A dance program of 20 numbers, music furnished by the 6th Infantry band, Mass. N. G.

Presentation of silk guidon to Battery B by the Lieutenant governor, acceptance by Capt. Sumner H. Needham; sounding of the colors; salute to the flag, by Battery B, commanded by Capt. Needham and officers.

A dinner in honor of Lieut. Gov. Coolidge will be given at the Richardson hotel prior to the ball. A detail from Battery B will meet the executive and escort him to the armory.

Battery B orchestra will assist during the evening, and will be stationed near the section reserved for the guests. When the band stops playing for the dancing, the orchestra will furnish concert and song number selections.

The patronesses for this event are: Mrs. Frederick A. Flather, Mrs. Lucien Horton, Mrs. Frank E. Dunbar, Mrs. Meta Jefferson, Mrs. S. R. Walker, Mrs. Charles Baran, Mrs. Mary W. Holden, Mrs. George H. Jannison, Mrs. James E. Nesmith, Mrs. Thomas Stott, Mrs. Charles L. Slover, Mrs. C. C. Soley, Mrs. Matthew P. Mahoney, Mrs. James Gilbert Hill, Mrs. Frederick A. Fisher, Mrs. Alvah Sturgess, Mrs. Mary R. Garly, Miss Mary Reilly.

One of the charming features of the dance will be the appearance of thirty high school girls in their olive drab uniforms, who have offered to assist the Battery B boys in any way they can. This offer was accepted immediately and the girls will undoubtedly be the center of attraction at the ball. They are Misses Agnes Joyce, Elsie Johnson, Olga Gray, Grace Martin, Berle Donovan, Mildred Tighe, Pearl Small, Bernice Moody, Ethel Scott, Madeline O'Day, Bessie Keyes, Ruth

Handley, Adriette Lee, Tina Mulcahy, Dorothy Farnsworth, Florence Gullison, Sally Nyström, Helen Tighe, Margaret Dougherty, Emily Harris, Marion Gibbons, Madeline Doran, Helen Keyes, Irene Bentley, Gertrude Clark, Muriel Leach, Grace Darling, Beryl Blair, Catherine McDonald, Esther Ziskind, Emma Paresky, Bessie Braver, and many others.

It has been arranged to use Company M quarters for the ladies' rest and check room, through the courtesy of Capt. Daniel Christian. Through the courtesy of the Bon Marché company, a large Victoria will play the latest numbers in this room during the evening.

The check and smoking rooms for the men will be in the basement near the target range.

On account of the large number of people who will attend, the request is made that everybody get there early and into the big drill shed, so that there will be no crowding in the corridors.

The quarters formerly used by Major Kittredge will be used for the guests, nationesses, and high school girls' committee.

ELKS WILL HOLD FLAG DAY EXERCISES

In accordance with the suggestion contained in Mayor O'Donnell's flag day proclamation all civil and military organizations are cordially invited to participate in the parade and exercises on the South common, Thursday afternoon, under the auspices of the Elks lodge, No. 57, B. P. O. E. The parade will form in Middle street and will march to the common, via the downtown streets.

These exercises are obligatory on the part of all lodges identified with the Order of Elks and in past years have been held indoors. This year it has been deemed advisable to make the demonstration a public one and to encourage the active participation of everyone in it. With this in view the committee in charge of the local affair extends a cordial and earnest invitation to all organizations and citizens of the city to participate and make it a memorable one in the annals of the city's history.

The members of the Machine Gun company will march in the parade and also the members of the new Lowell Battery. The G. A. R. veterans have been invited to attend and it is expected that all semi-military, social and fraternal organizations of Lowell and suburbs will help in the Old Keyes parade. The closing number will be "The Battle Hymn of the Republic" by Nora Regan Langton. George Joy Hawthorn of Boston will sing "Your Country Needs You Now," and the entire audience will sing a medley of patriotic songs, including "My Maryland," "Dixie" and "My Old Kentucky Home." The closing number will be "The Battle Hymn of the Republic" by Nora Regan Langton. George Joy Hawthorn of Boston will sing "Your Country Needs You Now," and the entire audience will sing a medley of patriotic songs, including "My Maryland," "Dixie" and "My Old Kentucky Home."

Major James E. O'Donnell and Congressman John Jacob Rogers will be the speakers of the afternoon. The U. S. Cartridge Co. band will head the procession, and the Sixth Regiment band will, if arrangements can be made, head the military bodies.

The committee on arrangements consists of John P. Farley, Dr. T. F. Carroll, Major Walter R. Joyce, William H. Mahan and Samuel Scott.

Cronin prepared for college at Tilton seminary in New Hampshire, where he became well known as an athlete and while at Georgetown he attained many honors both in studies and athletics. He will train for aviation for the next six months at Squantum, Mr. Cronin is well known in this city, having played basketball on many occasions with the Ballardvales.

## BANDITS AND VICTIMS EFFECT RECONCILIATION

PETROGRAD, June 12, via London —Bandits of kakhaetia in the Caucasus, who, under a local Rob Roy, Achmet Jui, for ten years have terrorized the dwellers in the valleys, murdering, plundering and kidnapping women, have just effected a reconciliation with their victims under romantic circumstances.

After the revolution the kakhaetians organized self-defense societies and a short time ago called a mass meeting at Gudjiaoi railway station, from which a raid against the robbers was proposed. During the meeting envoys of Achmet appeared armed to the teeth and announced that although they had no conscientious objections against continuing the feud they were equally willing to conclude peace.

The obdurate kakhaetians replied that bandits already captured by the authorities be handed over to the authorities for punishment. The meeting promised to end in a general disagreement when more bandits appeared, according to Achmet's wife, a beautiful young woman of Christian origin, whom Achmet after kidnapping in 1913, converted into a devoted partner.

Following the example of the Sabine women the bandit's wife fell on her knees, shed tears and so touched the hearts of the men that citizens that peace was concluded on the spot. A resolutions was adopted declaring that the infamies committed by the bandits were due to the demoralizing influence of the autocracy. A committee was despatched to the minister of justice with a petition asking for the quashing of pending prosecutions.

## CANADIAN CASUALTIES FOR YEAR 65,549

OTTAWA, June 12.—Canadian casualties at the trench front between June 30, 1916, and June 30, 1917, totaled 65,549, it was announced here last night. The number of recruits secured during that period totaled 75,510.

Casualties from Feb. 1, 1915, to April 30, 1917, were 12,645, and enlistments during that period were 19,684.

Of the 65,549 casualties during the past year, 12,664 were killed in action, 2,810 died of wounds, 911 died of sickness, 1,323 are presumed to be dead, 602 are missing, 45,325 were wounded and 1010 are prisoners of war.

Of the 17,646 casualties during February, March and April, 3021 were killed in action, 842 died of wounds, 502 died of sickness, 426 are presumed to be dead, 12,243 were wounded, 490 are missing and 61 are prisoners of war.

Why Not a Few Weeks on a Western Ranch This Summer?

A lot of ranch owners out in Wyoming—fine, wholesome people—have taken up the idea of having established cottages and house-lents near by, to accommodate summer boarders.

They are making it a business to take good care of these boarders, to furnish them with saddle horses, guide them on fishing, mountain climbing and sight-seeing expeditions and, beyond all, to make them comfortable and give them thoroughly good, well-earned rest.

We make it our business to know about these ranches, and are prepared to give you the names and addresses of many, to explain their facilities and attractions, cost of living there, and how to reach them most conveniently.

It's all very simple and easy, and for perfect rest and relaxation for a way to secure a store of health for the coming year, you can't go wrong on a ranch vacation.

Let me help you plan for such an outing and give you all the information needed; in fact, make all arrangements for the complete trip.

# CITY MUST PAY THOMAS, DRACUT MAN HELD FOR ESPIONAGE BILL GOES TO STILES AND FOYE ATTEMPT TO KILL HIS DAUGHTER PRESIDENT WILSON

The members of the municipal council at a regular meeting this morning voted to pay back salaries to Robert J. Thomas, superintendent of water works; Edward H. Foye, purchasing agent and former Treasurer Andrew J. Stiles. In the course of the meeting Jackson Palmer of the waterways committee recommended that an inspector for the

waterways and the life saving apparatus be appointed and the matter was referred to the mayor, as was also that of tearing down the old wooden bridge across Beaver brook. Considerable routine business was transacted.

The meeting was called to order at 10:10 o'clock by Mayor O'Donnell. Continued on page five

## DISABLED U-BOAT IN SPANISH PORT

CADIZ, Spain, June 11, via Paris. June 12.—The Spanish torpedo boat No. 6, this morning discovered the German submarine U-52 disabled from gun shots which had struck her engines. The submarine was towed into Cadiz and stripped of her wireless apparatus so that the vessel could not communicate with vessels of the central powers interned in this port.

Repairs to the German submarine will take at least two days but it is believed the vessel will be interned. The German commander today paid a visit to the Spanish port officials who later returned the visit.

The submarine is of 450 tons and carries a crew of 20. It is equipped with two torpedo tubes and two rapid-fire guns.

## CLOCKS MARK PROGRESS OF LIBERTY LOAN

NEW YORK, June 12.—Thirty big clocks placed on prominent street corners marked the progress today of the Liberty Loan in the second federal reserve bank district and in the nation. The minute hand shows the purchase of bonds in this district and the hour hand points to the purchase throughout the country.

**Federal Land Banks Buy**  
WASHINGTON, June 12.—The 12 federal land banks have decided to subscribe from \$5000 to \$10,000 each to the Liberty Loan.

**New Bedford Subscriptions**  
NEW BEDFORD, June 12.—All work in the centre of the city stopped today for two hours between 12 and 2 while a committee made a drive for Liberty bond subscriptions. At noon the committee announced subscriptions here from the mill corporations, banks, mill operatives and individuals had reached \$2,392,400.

**Boy Scouts Help**  
NEW YORK, June 12.—First returns received today at national headquarters of the Boy Scouts of America from the four day Liberty loan campaign of the scouts throughout the country show that \$180,270 was subscribed in fifteen cities and towns yesterday.

**\$2,000,000 Subscription**  
CHICAGO, June 12.—Chicago's task of subscribing \$1,000,000 an hour to the Liberty loan until noon today was achieved a two hour ahead today with announcement of a \$2,000,000 subscription by the Chicago branch of Lee, Higginson & Co.

**Subscriptions from Bideford**  
BIDEFORD, Me., June 12.—The Peppercorn Manufacturing Co. today subscribed \$400,000 for Liberty Loan bonds. The York Manufacturing Co. at Saco yesterday subscribed for \$100,000 of the bonds.

By today's subscriptions Bideford's allotment is over subscribed, but the committee is after \$200,000 more.

**\$11,000,000 in Cleveland**  
CLEVELAND, O., June 12.—At noon today the Liberty loan campaign had netted \$11,000,000. The Cleveland's quota of \$45,000,000. The additional \$4,000,000 will be realized by Friday, campaign managers say.

**Keep Banks Open**  
BOSTON, June 12.—Alfred L. Aiken, governor of the federal reserve bank of Boston, today requested every bank to continue to open five.

**SOME FISH!**  
700 Pound Halibut Caught in New England Waters Brought in to Boston by Schooner Eva Avina

BOSTON, June 12.—A 700-pound halibut, said by fishermen to be one of the largest ever caught in New England waters, was brought in today by the schooner Eva Avina. It was hooked 50 miles northeast of Thatcher's Island and brought \$50.

**South Dakota Returns**  
WASHINGTON, June 12.—The governor of South Dakota reports the state's total registration at 55,014, divided as follows: White, 34,772; colored, 153; alien, 268; alien enemies, 434. Indicated possible exemptions claimed, 22,221.

State's estimated eligibles, 67,790.

**Call for 70,000 Men for Regular Army**

## PEARY SAYS AIRPLANES WILL CURB U-BOATS

WASHINGTON, June 12.—Rear Admiral Robert E. Peary told a subcommittee of the senate military committee today that the airplane was the cheapest and quickest answer to the submarine and that if 1000 airplanes were sent abroad they would do more to curb the submarine menace than anything else that could be done.

"With the same concentration of effort as von Tirpitz exerted to develop the submarine in Germany I think we will have an answer to the submarine and a quick decision of the war," he declared.

Admiral Peary appeared in support of a bill to establish a department of aeronautics, with a place in the cabinet.

The general opinion among experts, he said, is that the war will be decided in the air and that soon airplanes will be fighting in brigades of from 500 to 1000 fighters.

Senator Brady asked if by the use of airplanes the landing of a hostile army could be prevented.

"It could," Admiral Peary replied, "but it would mean the use of thousands instead of hundreds of planes."

## TO ARREST MEN WHO DID NOT REGISTER

WASHINGTON, June 12.—Arrest and possibly a year's imprisonment today threatened men of registration age who have failed to enroll for army conscription. Governors had orders from the war department to cease extending leniency to those who did not register on the single registration day, last Tuesday, and to prosecute violators vigorously.

The publication of lists of registered men is expected to aid in detection of slackers.

Provost Marshal General Crowder today awaited registration reports from 15 states so that the nation's total can be figured, each state's conscription quota determined, and rules announced for the second step in the process, the summoning before local exemption boards of a proportion of the men registered. These states had not reported up to last midnight: Arizona, Idaho, Indiana, Kentucky, Massachusetts, Michigan, Minnesota, Missouri, Montana, Nevada, New Mexico, New Jersey, Pennsylvania, South Dakota and Wyoming.

**Returns from Michigan**

LANSING, Mich., June 12.—Complete official tabulation of Michigan's registration this morning gave the state a total of 372,870 registered. Of this number the white registration was 291,597, colored registration 81,273. The total indicated possible exemptions were 153,270. The census bureau estimate for Michigan was 330,000.

**Sell Draft Cards**

NEW YORK, June 12.—Evidence of the sale of selective draft registration cards, presumably to be used by persons who, after registration, while the original holders are not dupliques for their own use, has been discovered here.

It was announced yesterday by Edward F. Boyle, who directed the enforcement in this city.

This came out, he said, in the investigation of applications made by a number of foreigners for duplicate cards on the ground that they had lost their originals. Mr. Boyle stated that selling registration cards is a crime punishable by a year in prison and that both parties to such a sale would be arrested.

**Held for Grand Jury**

NEW YORK, June 12.—Three men who were arrested last night at a meeting of the No Conscription league where Emma Goldman and others denounced the war and the army were held for grand jury today charged with refusing to register for the selective draft. They were Philip Levine, Herman Wassow and William Herrguth. They said they did not register because the registration act was unconstitutional.

**Three Sons Enlist—Mother Offers All Her Property and With Daughter Joins the Red Cross**

WASHINGTON, June 12.—War department records today disclosed a remarkable case of family patriotism. Three sons of a Tampa, Fla., family are enrolled respectively in the regular army, the aviation corps and the officers' training camp at Fort Oglethorpe, Ga. The mother and daughter, the rest of the family, are preparing to join the Red Cross and, in addition the mother has offered all her property, consisting of 200 acres of land, to the government for any purpose.

**ARMED AMERICAN STEAMER PETROLITE WITH CREW OF 38 SUNK BY GERMAN SUBMARINE**

WASHINGTON, June 12.—The American steamer Petrolite has been sunk by a German submarine.

Consular reports which brought news of the disaster today said one boat with eighteen men, the third mate and the chief engineer had been landed and two boats with an unestimated number of men were missing.

The time and place of the attack were not given in the dispatches.

The Petrolite, a tank steamer, first figured in the news nearly two years ago, an attack upon her by an Italian submarine threatening diplomatic relations between the Vienna government and the United States. The ship was shelled by the submarine and men aboard her were wounded.

The submarine sent a crew aboard the vessel and removed a large quantity of supplies. She then was permitted to proceed.

**THE INCIDENT WAS THE SUBJECT OF A SERIES OF NOTES BETWEEN THE UNITED STATES AND THE AUSTRIAN GOVERNMENT.**

The Americans on Board  
NEW YORK, June 12.—The Petrolite, a vessel of 3110 tons, owned by the Standard Oil Co. of New York, left here April 30 for Savona and Leghorn, Italy. The vessel was in command of Capt. Thomas H. McKellum, and carried a crew of 38 Americans.

The ship was armed and carried a gunners' crew.

According to the records of the ship, an attack upon her by an Italian submarine was reported on May 1, 1915. The Petrolite was formerly the steamship Excelsior, under the German flag and was transferred to American registry with other ships of the Standard Oil fleet, early in the war. She was built at Stettin, Germany, in 1898. She carried oil in bulk.

W. Hantel, second assistant engineer, New Orleans.  
P. E. Costell, third assistant engineer, Brooklyn, N. Y.  
Alex. Vellier, Greek, naturalized, Lewis Shayne, mess boy, Brooklyn, N. Y.  
J. H. Stern, wireless operator, Arverne, N. Y.  
Jack Hurl, 10 field street, Boston.  
Charles Gutz, New Orleans.

The Standard Oil Co. said today they had received word from Gibraltar that the Petrolite touched at that port yesterday on her return voyage from Italy to America. They assumed that her crew was the same as manned the vessel when she left New York. They had received no details of the sinking.

What might have resulted in a tragedy in the Collinsville section of Dracut was probably averted by the timely arrival of Officer William H. Cullinan of that town. Ahaamed Hassan, aged about 30 years, is locked up at the police station in this city, charged with assault with intent to kill his infant daughter and an additional complaint of assault with intent to kill his wife, may also be made against him when brought before the court tomorrow morning. The wife is suffering from great nervousness since the assault and although the child has recovered consciousness its condition is still serious.

Hassan and his family live in Mammoth road in Collinsville, and of late he had been employed at the Beaver Brook farm. According to what could be learned from neighbors and the police of Dracut, Hassan started to assault his wife this morning, as a result of an argument over some family affairs and during the course of the struggle he drew an automatic revolver and threatened to kill the woman, but she rushed out of the house. It is said that he gave chase, but being unable to overtake her rushed back into the house and taking his infant daughter, who is less than a year old of the bed on which she was lying, threw her on the floor.

Word was telephoned to Officer Cullinan and upon his arriving at the house he found the child was in an unconscious condition and the woman was suffering from the nervous shock occasioned by the assault. A physician was summoned and Officer Cullinan started to scour the woods in the vicinity of the Hassan home but soon got a clue that the man went to Lowell and shortly before noon located Hassan in a shoe store in Merrimack street, near city hall. He placed Hassan under arrest and took him to the police station where he was booked for assault with intent to kill.

The child did not recover consciousness until after noon and from that time it would lapse into a state of coma.

When placed under arrest Hassan declared that he had a revolver and a careful search of his clothing failed to bring any weapon to light, but under a portion of his underclothing was found a clip, for an automatic revolver, containing eight cartridges of .38 calibre.

Considerable excitement was caused in the Collinsville section as a result of the assault, and a number of the residents instituted private searches for the man, but evidently he did not remain in Dracut long after the assault.

## RINGLING BROS.' CIRCUS, BIGGEST ON EARTH, HERE TOMORROW

Bringing with it all the enchantment of the sawdust and spangles so dear to the hearts of both young and old, Ringling Brothers' circus will invade Lowell tomorrow morning, and promises to be the mecca for thousands for one whole joyous day.

The big show will come here from Salem. It will be transported on four trains made up of 89 cars. Unloading will take place in the yards of the B. & N. R. Local railway officials today figured the first section to arrive at about 4 a. m. and be followed closely by the remaining three trains. As fast as the sections reach town they will be unloaded and their cargoes of wonders moved to the Fair grounds.

This season's circus is the largest ever traveled by the Ringling Brothers. A great number of cars have been added for the purpose of carrying the vast amount of costumes, scenery and paraphernalia used in the new spectacle, "Cinderella." The menagerie has been enlarged and now exhibits 108,000 of wild animals numbering more than 1000 rare beasts; to say nothing of the 11 elephants led by "Big Bingo"; herds of zebras, camels and ostriches, the giraffe family and the special wheeled homes in which reside the jungle "Thespians" that take part in the trained animal revue. More than 1500 people travel with the show.

Of course, Cinderella triumphs, just as she does in the story books and, accompanied by her fairy godmother, the gnomes and pumpkin coach, goes to live in the castle. A fairy band of 300 dancing girls are but a single feature of the great production. The costumes, scenic transformation and electrical effects are said to be the most remarkable ever presented anywhere.

### LLOYD GEORGE'S TRIBUTE TO MAJ. REDMOND

LONDON, June 12.—The convention to be convoked by the government in an attempt to solve the Irish problem will be composed of 101 members, representing every walk of life in Ireland. In announcing the composition of the convention yesterday afternoon in the house of commons, Premier Lloyd George said the government had thought to make a representative of everyday life in Ireland, this plan including an invitation to the county councils and to each of the borough councils to send its chairman. The urban councils had been invited to send two representatives.

The 15 members to be nominated by the government, said the premier, would be taken from among leading Irishmen of all sections. The government, he added, would prefer that the convention nominate its own chairman, but the government was prepared to nominate one if necessary.

The Irish unionist alliance mentioned by the premier as among the invited to the convention, said the premier, to be given seats in the convention, represents the unionists of the south of Ireland.

Frankie William Redmond

John Redmond, the nationalist leader.

### FORTY YEARS' SUCCESS

For a business to be successful for forty years means a great deal. Among other things, it means remarkable excellence in the products it sells. No inferior article can be sold on a large scale for so many years; and it must not only be good at the outset, but so good that the progress of forty years shall not supercede it.

So women can, with confidence, depend upon that old, tried and tested remedy for woman's ailments, Lydia E. Pinkham's Vegetable Compound, still as popular as ever, though it was placed on the market before the centennial year, 1876.

er, will be invited to nominate five members of the Irish convention, the premier said. Sir John Lonsdale will be invited also to nominate five members, the premier added, and William O'Brien two members.

There will be 10 Irish representatives, five members of the Irish unionist alliance, five Sinn Feiners and 15 members nominated by the government.

The churches, he said, would be represented by four Catholic bishops, by the primate and archbishop of Dublin, representing the Protestant religion, and by Mr. John Lewis, moderator of the Presbyterian assembly.

He said there would also be five representatives of the Irish labor interests.

Mr. Lloyd George delivered an eulogy of William Redmond, whose death from a wound received at the front was announced last week. He said Mr. Redmond was above all Irish and felt the war was Ireland's great opportunity for winning liberty for herself by fighting side by side with Great Britain in the world struggle for freedom.

Mr. Asquith associated himself with the premier's tribute, and Joseph Devlin, nationalist, thanked them for the references they had made.

Several members first lord of the admiralty, in adding his tribute to that of the premier, said he had never had a bitter word with Mr. Redmond, either in public or in private.

He mentioned the fact that he had just returned from the Ulster conference and had strongly advised its members to enter the Irish convention.

They could not disconnect in their minds, he continued, the calling of the convention and some incidents which had taken place, of which Mr. Redmond's death was a sad reminder.

The premier had told, said Sir Edward, how Mr. Redmond had been cared for and treated by Ulster men on the battlefield.

He in the trenches they could fight side by side in the common cause of liberty," added the speaker, "certainly, so far as I am concerned, will do all in the power of my arm to bring about the Irish question which will meet the ideals of liberty of all parties in Ireland."

### DELIGHTFUL RECITAL AT COLONIAL HALL

The first of two joint recitals under the auspices of the B. F. Butler Relief corps, 75, was given at Colonial hall last evening but, unfortunately, the heavy shower at the time of the opening of the performance was responsible for keeping many lovers of good music at home. The artists presented last evening were: Wilmet Goodwin, harp; Florence Austin, violinist, and Samuel Quincey, pianist, all of whom will give another delightful program this evening in the same hall.

Last evening's program was a pleasing mixture of compositions from the world's best known composers and numbers that proved both instructive and enjoyable. Mr. Goodwin's recital of a harp solo, voice capable of rapid modulation even to the very lighter shades of tone. His singing was most commendable. His voice has won for him a wide and growing popularity throughout the country and today it is at the fullness of its perfection.

Miss Austin played the violin with ease and firmness and her bowing was swift and accurate. Her instrument was in a most delightful manner, and this was particularly noted in the rendition of "Zigeunerweisen," by Sarasate. Miss Austin has facility, an excellent musical understanding, an ingratiating manner, and the most captivating treatment of delicate passages. Her tone is broad, full and pure, her technique faultless, and the depth of her interpretative knowledge was eloquently demonstrated last evening.

Mr. Quincey is a talented pianist, whose playing is fully up to the standard of other noted artists. He is at all times an accompanist should be. He established himself in the favor of his audience with his first number and succeeding selections only increased the esteem in which his playing was held. This evening's program will be a very delightful one and music lovers ought not to miss it. Last evening's program was as follows:

- Eight Hungarian Rhapsody .... Liszt
- Arrive Ye Subterranean Winds .... Purcell
- Serenade .... Strauss
- Three Shadows .... Campbell-Tipton
- Vulcan's Song .... Gounod
- Paraphrase Sur Faust .... Gounod-Alard

### ROGERS HALL GIRLS IN ROMEO AND JULIET

The weather man is evidently opposed to outdoor theatricals as far as the students of Rogers Hall are concerned, for on two successive occasions he has greeted the attempts with rainy weather. Last evening he was especially emphatic in his disapproval, but, nevertheless, the annual school play was given in the gymnasium, and instead of detracting from the success of the performance, the elements provided some unlooked for effects in several scenes of the play. A large crowd of the friends of the pupils comfortably filled the gymnasium.

Mrs. H. J. Corwin had coached the young ladies in the difficult parts that such a play as "Romeo and Juliet" entails and, judging from the finished performance, was wholly successful. Although the stage effects were somewhat limited, there was a clever variation of those that were on hand, and at no time was there any monotony as far as scenery was concerned.

It is impossible here to give even a brief account of the play itself, but it will suffice to say that the young ladies offered their several parts faultlessly. The character of "Romeo" was played by Miss Elizabeth McCalmont, while that of "Juliet" was assumed by Miss Elizabeth Johnston. Each young lady is deserving of unusual credit for the manner in which she impersonated the role assigned her. The other performers deserving of more than casual mention included Miss Mary J. McKinsey as "Mercutio," Miss Grace Redman as the nurse, and Miss Katherine Wilson as the half-witted "Peter." The case in full follows:

- Prologue .... Mary Kelly
- Escalus, Prince of Verona .... Dorothy Hunter
- Paris, a Young Nobleman .... Mary Jane Patten

- Montague .... Louise Grover
- Capulet .... Gertrude Pritzlaff
- (Heads of two houses at variance)
- Elder Capulet .... Florence Armstrong
- Romeo .... Elizabeth McCalmont
- Mercutio .... Mary Jeannette McKinsey
- Benvolio, Friend to Romeo, .... Jeannette Rodier
- Tybald, Nephew of Lady Capulet, .... Brunhilde Pattiz
- Frar Lawrence .... Irma Richardson
- Frar John .... Dorothy Beeler
- (Franciscans)
- Balthasar, Servant to Romeo, .... Hannah McConkey
- Sampson, Servant to Capulet, .... Nan Sibley
- Gregory .... Sara Scott
- Peter, Servant to Capulet, .... Katherine Wilson
- Abram, Servant to Montague, .... Amy Curtis
- An Apothecary .... Alcey Stevens
- Lady Capulet .... Doris Jones
- Juliet, Daughter of Capulet, .... Elizabeth Johnston
- Nurse to Juliet .... Grace Redman

In several of the scenes the entire school appeared, but had no speaking parts. The proceeds of the play will be turned over to the Red Cross fund.

### SAVE THE FOOD CARRIDGES

Every housewife should rummage her pantry, kitchen, fruit room and cellar for containers which possess any possibilities of being converted into "food carriages." All wide mouth bottles, stone jars and other glassware or stone ware having openings sufficiently large to admit fruit products should be utilized in order to save the tin cans and glass fruit jars for more perishable products.

Preserves, butters, jams, sweet pickles and even some fruits may be kept as well in the type of containers named above as they could be in regular fruit jars. Such containers may be closed by means of a cork or paraffined wooden plug and by the use of sealing wax or paraffine may be perfectly sealed. Formerly most of our fruits were kept in glass and earthenware jars whose openings were sealed with wax, and the present generation can be as successful as were their grandmothers. Every home will be able to produce a number of these types of containers

and many homes a very large number, and every pint of food products preserved in this way leaves the country's supply of "food carriages" just that much larger, and the country needs all these that can be manufactured and distributed in order that every particle of food may be saved.

### SILVER WEDDING

Mr. and Mrs. Albert La Fleur were agreeably surprised Saturday evening at their home, 4 Gates street, by their many friends and relatives, the occasion being the 25th anniversary of their marriage. The happy couple received many useful as well as beautiful presents, one of them being a purse of silver, presented them by their children. Refreshments were served and the affair broke up at a late hour, all wishing Mr. and Mrs. La Fleur health and prosperity for years to come.

Western States Clamor  
for Recognition—  
Breakers Ahead

Special to The Sun.  
WASHINGTON, D. C., June 12.—The republicans of the house have recently organized an advisory committee of five whose special mission will be to aid in mapping out a course of legislation and to be at the service of the minority in smoothing the way for measures as may be deemed necessary. The New England member of the committee is Congressman Gillette, of the 2nd Massachusetts district, whose long term of service and wide acquaintance with the makers of public policy in the north-east New England interests. The committee has for its other members Republican Floor Leader James R. Mann of Illinois, Mondell of Wyoming, Moore of Pennsylvania and Lenroot of Wisconsin. The committee of five is the outcome of the republicans of 27 which was the steering committee of the last session. It was thought a smaller committee could work more successfully and intimately and so get in closer touch with the needs of the various sections of the country. The men will meet daily before each session and confer not only among themselves but with other members regarding pending legislation. It was the purpose of the republicans to select members from widely separated sections of the country and representing widely varying shades of political opinion, in order that the entire republicanism of the advisory committee. New England is much pleased over the selection of Mr. Gillette, but the west and south are clamoring that they have no place in the little group of five leaders. Moreover, there is a hue and cry by them that no state farther west than Kansas has a man of the powerful ways and means committee and they are casting covetous eyes on the vacancy left by the resignation of Col. A. F. Gardner and for which Congressman Lindbergh is a strong candidate. Mr. Gillette is second in rank on the advisory committee, only Floor Leader Mann having priority over him, and as Mr. Mann is away for a few days, Mr. Gillette will serve as chairman until his return and on him will fall the responsibility of leading the steering committee through the turbulent week that is in store for congress.

## ITALIAN WAR MISSION ON TOUR OF U. S.

WASHINGTON, June 12.—The Italian mission, its work completed, will leave today for a tour of the country prior to its departure for Italy. The head of the mission, the Prince of Udine will remain here because of his illness which caused postponement of the trip last week. He plans to join the party at New York.

The first steps of the itinerary will be made tomorrow at Atlanta and Birmingham. Other cities to be visited in the order named, follow: New Orleans, Memphis, St. Louis, Burlington, Iowa, Chicago, Pittsburg, Harrisburg, New York and probably Philadelphia.

The government provided a special train for the tour.

## HEARING ON FREIGHT RATE INCREASE ENDS

WASHINGTON, June 12.—The interstate commerce commission today completed its hearings on the 15 per cent freight rate increase by railroads of the country to become effective July 1. With less than three weeks in which to make a decision involving a sum estimated by shippers at \$200,000,000 the commission has before it for review hundreds of letters, telegrams and briefs as well as a great mass of testimony, arguments and statistics.

Today's arguments were opened by Charles Donnelly, chief counsel for the western railroads.

## MORE U. S. FORCES ARRIVE IN FRANCE

BOULOGNE, June 12.—Another installment of the vanguard of the American army has arrived in France in the form of 150 ambulance drivers and 75 nurses. Preceded by a British military band, they marched through the streets to their quarters, amid the enthusiastic cheers of the populace.

## MOURNS DEATH OF REDMOND

Boston Central Branch of United Irish League Adopts Resolutions of Sympathy.—Sends Message to Brother.

BOSTON, June 12.—Resolutions of sympathy on the death of Mr. William H. K. Redmond, and a cablegram to John E. Redmond expressing deep sorrow, were the actions taken at a special meeting of the Boston Central Branch of the United Irish League yesterday.

Dr. Henry V. McLaughlin called the meeting to order. All the members present were personal friends of Major Redmond and they had worked with him to make his tour here a success. It was voted to send a cablegram to Mr. Redmond right away, and then to mail resolutions. Michael J. Jordan, national secretary of the league, was chosen to draw up the resolutions.

## SHUT OFF GAS IN PARIS

PARIS, June 12.—The decree ordering the shutting off of gas for thirteen hours daily has caused consternation in Paris where many industries are dependent on gas for light and power. It is now announced, however, that the measure will not be applied to the capital suburbs and it is considered doubtful if it will be applied anywhere. The newspapers point out so many exceptions that will have to be made that the application of the decree appears unlikely. It is understood that the order will be discussed at a cabinet meeting today.

## MAJOR REDMOND'S DEATH

The news of the death of Major William H. K. Redmond, M. P., at the front in France, has caused widespread regret among his hosts of friends in every quarter of the globe. His death seems to have occurred at the psychological moment to be of most benefit to the cause of Ireland. This was indicated by the high tribute paid him by Premier George and ex-Premier Asquith, the former stating that Mr. Redmond was above all Irish and felt the war was Ireland's great opportunity for winning liberty for herself by fighting side by side with Great Britain in the world struggle for freedom.

But most surprising of all was the statement made by Sir Edward Carson, until recently the bitterest enemy of the home rule cause. He said he had noted the premier's statement that Mr. Redmond when wounded was tenderly cared for on the battlefield by Unionists from Ulster. "If in the trenches they could fight side by side in the common cause of liberty," added the speaker, "certainly, so far as I am concerned, I will do all in my power to assist in some solution of the Irish question which will meet the ideals of liberty of all parties in Ireland."

Thus in giving up his life in the battle of Messines, Major Redmond rendered a signal service to his country as here acknowledged by one of its erstwhile enemies.

No man was willing to make any greater sacrifice for Ireland than was Major Redmond. Like the brilliant Thomas Kettle killed over a year ago, he believed that in espousing the cause of the Entente Allies, he served not only the cause of Ireland but the cause of world democracy as well and also that of poor, down-trodden Belgium. He enlisted early in the war believing that if Irishmen cast themselves into the conflict, they would thus overcome the only remaining opposition to home rule, to wit, that of Ulster. The Irishmen had good reason to believe this as after a long struggle the home rule bill had been placed upon the statute books and the time of its taking effect was then merely postponed. The situation changed later, but Major Redmond still believed that the government would do justice to Ireland. On a couple of occasions he crossed the channel from France to take part in debates on the Irish question and his appeal made a deep impression. In common with his brother, Hon. John E. Redmond, the ill-fated soldier believed that the cause of the Allies was one in the interest of world freedom and democracy. Had he felt otherwise he would have denounced it as he did the war against the Boers—"one of robbery and hideous massacre." Although Major Redmond's death will remove an able man from the ranks of the Irish Nationalist party, it must certainly appeal to the government as a proof of what Irishmen would do in a just cause if they or their country were justly treated.

That Redmond has not died in vain and that he was right in his view of service in the war was proved by the speeches of the ministers in parliament in commenting upon his death. Representatives of all parties are now entering the Irish convention with an honest purpose to unite in framing a constitution for Ireland that as Mr. Carson states will meet the ideals of Irish liberty.

## LIBERTY BOND APPEAL

New England has fallen behind in its estimated quota of the Liberty Bond to the amount of \$155,700,000. Lowell being a New England city must share part of this responsibility. There are but three days left in which to invest. During this time an extraordinary effort should be made to roll up an amount that will do credit to our city as compared with other cities.

It is true that a factory city is at a disadvantage as compared with cities like Springfield and Worcester in not having so many moneyed men. But the factories have begun to do their duty and if a campaign be organized in each, there is no doubt that thousands of operatives who have the money to spare, will invest in the "Liberty Bonds."

The possession of these in after years when the war is over will be a badge of honor and a proof of patriotism for those who could not go to the front. It is, moreover, the belief of many men of good judgment in such matters that these Liberty Bonds in a few years will be selling at a premium, so anxious will be the people to have them ten or twenty years hence. It must be remembered also that the security is beyond all question the best on earth. The bonds are negotiable and they can be exchanged for bonds at a higher rate of interest if any such be issued later by the government. Hence there is no excuse for holding back on this purchase with the expectation that other bonds will be issued on better terms. The Liberty Bond from the day of its purchase will be worth at least its face value in cash but there is a strong probability, as already stated, that it will go to a premium. Thus whether viewed from the cold calculating view of an investment or from the

patriotic obligation to assist the government and to uphold the record of our city, the purchase of a Liberty Bond is the first duty of every citizen who has the money.

Therefore, let the factories, the stores, the city employees and every influential agency in Lowell lend a hand in putting Lowell where she should stand in this Liberty Bond purchase. Whatever is to be done, must be done quickly as the time for sale expires next Friday noon.

## PUT THE BAN ON IDLENESS

Here's a good idea from the pen of Samuel Gompers, president of the American Federation of Labor.

Abolish "scorvitors, valets and flunkies," says Gompers in an editorial in the American Federationist.

The labor chief refuses to recognize any shortage of labor while there are thousands of men doing for others what those others ought to do for themselves.

Mr. Gompers points out that this servitor class does nothing except perform personal service for healthy men and that in this time of war every person ought to be a self-respecting and productive member of the community.

This is a good time for every person to get into productive work. No idler can have any place in the scheme of things when the nation is meeting the supreme test of war.

## MEANING OF "BONE DRY"

Editor Sun: Will you please inform me who invented "bone dry" and what is its meaning? State also whether it is in any way connected with bone head. By so doing you will much oblige, Yours etc., J. F. F.

While some give William Jennings Bryan the credit of inventing "bone dry," we are of the opinion that it originated with the same man who invented "bone head." The former term is intended to bring on a thirst that prevents ossification, while the latter application to a condition in which the ossification of the scapular periosteum, the concentric lamellae, the lacunae and the Haversian ducts, is already complete.

## LIQUOR ADVERTISING

The newspapers that have been in the habit of carrying liquor advertising are much concerned over the federal law which imposes a heavy penalty for any publication carrying a liquor advertisement into a prohibition state. The penalty is a fine of \$1000 and imprisonment for six months for the first offense and a year for each subsequent offense. Suppose a Lowell paper containing a liquor advertisement be sent into the state of Kansas, the publishers would be liable to conviction under this law. Such an arrangement does not bother The Sun, which has not accepted this special advertising for many years. The effect will be to stop all liquor advertising.

## CHARLIE AS A SOLDIER

When Charlie Chaplin gets in front of the Germans, he will change his wiggle. Instead of an assumed tremor of his underpinning, he will probably experience the reality. If the movie man could snap Charlie while trying to fire a rifle at the German lines, the facial expression of the comedian would be a great attraction for some of the picture houses. If Charlie returns, he will undoubtedly perform some great stunts that will make the world laugh. But despite his absence there will remain a godly number of versatile "slackers" who will impersonate him.

## NOT A RICH MAN'S WAR

The Socialist claim that this is a rich man's war and that the government is working against true democracy is sheer hosh. The proposition to arm the Socialists as the "home guard" and allow them to elect their own officers is a rather dubious one, coming as it does from an organization that is avowedly working for the establishment of the co-operative commonwealth.

The state of Oregon sends Judge Charles S. McNary to the United States senate as successor to Senator Lane. The peculiar thing about the change is that although a republican, the new senator is a staunch supporter of President Wilson's war policy, while Senator Lane, who was a democrat, opposed the president's war policy. Senator McNary, although a young man, had been a member of the supreme court of his state. He is evidently qualified to make a useful member of the senate.

The man who represented himself as a Canadian soldier and swindled various parties on pretense of being the custodian of the remains of the ashes of dead soldiers has been arrested. The officer who got him without a substantial tip, should be highly commended. Next to the kidnapper, this species of thief was decidedly one of the most heartless and conscienceless.

The Canadian Killies should make a success of their recruiting campaign in New England. There are thousands of eligible reservists in all the large cities, Lowell among the number.

## Seen and Heard

Don't try to drown sorrow by thinking it is in the stomach.

The saying "Tomorrow never comes," was invented by a collector.

A self-made man shouldn't yodel about it until he's finished the job.

## Justifiable

The would-be humorist was meandering down the sunny side of the street.

Simultaneously a stranger was meandering up the same.

In due time they came face to face.

"What time is it, please?" queried the stranger.

"Summer time," hurriedly answered the would-be humorist.

And the following morning the stranger, who had been charged with assault and battery, told his story to the judge.

## Her "Grape Box"

Miss Helen, the daughter of the family in which jet black Maria Jackson occasionally worked by the day had been given a beautiful cup and saucer of pure china. She showed it to Maria and said:

"I mean to put it away in my hope box. You know what that is, Aunt Maria? It's the box a girl puts things into in the hope that she will someday need them as a bride."

"Lawsy, chile, I know all about dem hope boxes. I got one of my own

## How Jim Crustible Won

We have always known Jim Crustible, who ran the store at 720 Commercial, was one of the shrewdest business men of this town, says the Emporia (Kan.) Gazette. You never could tell him anything, and when he figured it out, it was so, and that was all there was to it. We were talking to him yesterday about a theory he had two years ago, and Jim says she's working like a charm.

Jim had a notion that it was eating him too mortal much money to do business; that his overhead was too heavy, so he says to himself, "I'll just save \$17.50 a month by cutting out my advertising." And he did cut it out. He was reasonable. There was \$17.50 every month in the year, and sometimes \$25 during the holidays or in the fall when trade was brisk, and in the course of the year it amounted to two or three hundred dollars. And Jim's head was working like a tack when he concluded that everyone knew his place of business. Of course, why every Saturday the place was crowded with farmers, and a dozen young fellows in town dropped in every day to buy a little something and chat with Jim.

So he quit advertising. And—that's the funny thing about it. His scheme worked. It really didn't cost old Jim so much money to do business. The books showed that he saved the two hundred a year and more by cutting out advertising, and at the end of the year he found where he could get along without one of his clerks. The farmers didn't bother him so much as they did, and his town trade wasn't forever hurting him about things people saw in the papers. So he dropped a clerk and saved that five hundred. There was seven or eight hundred dollars he saved—and says, Jim Crustible was certainly proud of his head piece, the way he had calculated it all out. You certainly can't tell Jim anything about business. He is the man who put the come in commerce street well developed after dropping the clerk, and worked out a scheme to save on the rent. So he moved off Commercial street on to the avenue last November, and saved four hundred a year in rent—sleek and clean—all good, easy money. There was nearly a hundred dollars a month he'd saved from his overhead, and so he found that the other clerk was just a pensioner, as you say; he wasn't doing anything much. And you can't fool Jim Crustible about a clerk; so Jim ups and lets the other clerk go.

## The Only Way

There are lots of fellows telling what will save us in this war. What will bring our country safely to the goal we're aiming for. What will settle all our foes and bring the whole world back to peace. What will make the Kaiser sorry and will make the British Empire happy. And some of them tell us one thing, and some know a better way; and I read or set and listen to the things all of them say. Till I come to the conclusion that just one way is the right. And that's just to buckle down and throw our coats aside and fight.

Each one must fight in his station, fight with weapons at his hand; some of us with our last ounce must help to cultivate the land; some of us must fight with money, every nickel we can spare; but we all of us are in it, if we're not in on the square. So I've dusted off my britches and I

## Instantly! Corns Stop Hurting! Corns Loosen and Lift Out

No pain! Few drops loosen corns and calluses so they fall off—Never let corns ache twice—No humbug!

For a few cents you can get a small bottle of the magic drug freezone recently discovered by a Cincinnati man. Just ask at any drug store for a small bottle of freezone. Apply a few drops upon tender, aching corns or callus and instantly all soreness disappears and shortly you will find the corn or callus so loose that you lift it off with the fingers. Just think! Not one bit of pain before applying freezone or afterwards. It doesn't even irritate the surrounding skin. Hard corns, soft corns, or corns between the toes, also hardened calluses on bottom of feet shrivel up and fall off without hurting a particle. It is almost magical. Freezone is a scientific compound made from ether, says a well-known druggist here, and the genuine is always sold in these little bottles packed in a round, wood case. Don't accept it unless in a round, wood case.

## LOWELL MEN NOT IN MINE EXPLOSION

After living in suspense and excitement for two days, several Lowell families were greatly relieved yesterday when a telegram arrived here from Butte, Mont., announcing "All safe; not working in that mine."

This despatch was the answer to a number of inquiries from Lowell, relative to the fate of over 12 former Lowell men, who went to Butte several months ago to work in the mines.

When the first report of the disaster that antedated hundreds of men in the Speculator shaft of the North Butte Mining Co. was received in Lowell, and announced on The Sun bulletin, a young man rushed into the office seeking information about the disaster. He said that his brother and about a dozen other Lowell men were working in Butte and he thought they were in that mine.

John Shannon, the well known Bay State street railway motorman, was the man who sought the information. The early reports of the disaster were very meagre and did not contain any names of the victims, and hence were of little help to Mr. Shannon. He said his brother, Phillip, when last heard from was living in the city of Butte, and when he told the writer that he had his address he was advised to send a wire direct to his brother's home there. This he did, but a despatch came back that Phillip Shannon was unknown there. He then met the relatives of several of the other former Lowell men who were out there, and they finally decided to communicate with the chief of police at Butte. Several telegrams were sent, and while all were answered it was not until late yesterday afternoon that the good news "All safe" was received. Mr. Shannon came into The Sun office and after showing the message and thanking the writer for his little assistance departed greatly relieved and happy that his brother and other Lovellites were not victims of the terrible disaster.

## SOUTHLAND'S FORTY MEN ARE SAVED

LONDON, June 12.—The two missing boats from the British steamer Southland, which was torpedoed and sunk on June 4, have been found, and the 40 men who were in them safely landed. Edward Rigney of New York, who had been reported missing, is among them. The Southland's captain reports that one American was killed in the sinking of the steamer, but that he does not know this man's name.

Five Americans, who were on the Southland have previously been reported rescued, namely, Albert Lyons, A. McCoy, James G. Gough, John McNeil and Jacob Houser. It had not developed previously that any other Americans than these five and Edward Rigney, now reported rescued, were on the steamer. Eight men were killed when the Southland was torpedoed. She was bound from Liverpool to Philadelphia in ballast.

## WILSON TO STATE WAR AIMS ON FLAG DAY

# POWER

To get out of your motor all the power that was built into it requires a gasoline that is not only pure but uniform.

It is because every gallon of SOCONY Motor Gasoline is like every other gallon, no matter where you buy it, that SOCONY runs a motor so much more efficiently than the best of unidentified gasolines. A carburetor once adjusted to SOCONY is adjusted for keeps.

You will find that SOCONY gives more miles to the gallon and more power to the mile. Say So-CO-ny and look for the Red, White and Blue sign.

# 11 BIG STEAMERS FROM EUROPE

AN ATLANTIC PORT, June 12.—Eleven large steamships, aggregating 165,000 tons, six of them under American flag, have reached here within the last day or two. It was announced by the International Mercantile Marine, owner of the vessels.

Among them was the Minnesota, 20,718 tons, the largest merchant ship afloat under the stars and stripes. The other American ships were the St. Louis, St. Paul, Philadelphia, Manchuria and Finland.

The targets of the 11 arrivals was the British ship *Essex*, a vessel of 22,374 tons. She is the biggest steamer to come into a port of this country, it was stated, since the Olympic left in 1914. The other British ships to arrive were the Adriatic, Celtic, Raphael and Gleniffer.

# ENGLAND BORROWED TWO BILLIONS IN U. S.

LONDON, June 12.—In reply to a question in the House of Commons yesterday, Andrew Bonar Law, chancellor of the exchequer, announced that since the beginning of the war Great Britain had borrowed from the United States a total of \$2,000,000,000.

Mr. Law said the average daily expenditure of the government in the first nine weeks of the fiscal year worked out as \$7,884,000 (\$39,120,000).

# HOLD UP DELEGATES TO RUSSIA

LONDON, June 12.—The holding up of the socialist labor delegation to Russia by the Seamen's and Firemen's union is causing a good deal of ferment and occupies much space in the papers. There is a sharp conflict of opinion and Ramsey MacDonald and Frederick W. Jowett, the heads of the delegation, have received strong support from the Glasgow trades council.

The trades council has telegraphed to the premier, the shipping controller, the foreign minister and the labor party, protesting against the hold-up of the delegation.

Several of the morning papers confirm the report that MacDonald and Jowett would insist upon a guarantee that they would be allowed to travel in safety and that they would be allowed to travel in safety and that they would be allowed to travel in safety.

# RUSSIAN NAVAL BASES ATTACKED BY GERMANS

There is again a lull on the Franco-Belgian front. The British, after capturing yesterday an additional mile of trenches west of Warneton, in the Belgian sector where their recent important advance was scored, confined themselves last night to raiding operations.

The Germans, for their part, sent feeling-out expeditions against the British lines at several points in this area. These were repulsed by the British who took some of the German prisoners.

According to Berlin's account of the fighting around Messines yesterday, a British cavalry force was sent into action there. Only remnants of the force returned to the British lines, the German report declares.

On the front occupied by the French there was inactivity, except for the artillery.

The Italian advance begun Sunday in the Trentino was not pushed further yesterday. The Rome official bulletin says that adverse atmospheric conditions interfered with the operations.

German activities have been resumed against the Russians on the Baltic coast. The Berlin admiralty today reports attacks by German seaplanes on Russian naval bases on the island of Oesel, off the Gulf of Riga.

# Attillery Engagements

PARIS, June 12.—Violent artillery engagements in the region of the Calais plateau on the Aisne front, and in the Champagne are reported in today's war office announcement.

Italian Repulsed

VIENNA, June 11, via London, June 12.—The repulse of all Italian attacks in their new offensive in the Trentino is reported in an official statement today.

Raid on British Front

LONDON, June 12.—Military operations on the British front in France last night consisted chiefly of raids on both sides of the Somme valley, and of Armentieres and north of Ypres, according to the official statement issued today by the British war department.

# Russian Bases Attacked

BERLIN, June 12, via London.—An attack by German seaplanes on Russian naval bases in the Baltic is announced by the admiralty. The statement follows:

"Some of our seaplane squadrons on Sunday successfully bombed and destroyed the Russian naval bases at Liban, (on the coast of Courland) and Arensburg, (on Oesel Island), at the entrance to the Gulf of Riga. Part of the military buildings were almost destroyed by fire. Our seaplanes returned undamaged."

# Lynch—Carroll

Charles U. Lynch and Miss Elizabeth M. Carroll were married yesterday afternoon at 5.45 o'clock at the Immaculate Conception rectory by Rev. Lawrence F. Tighe, O.M.I., pastor of the parish. The bride wore a white dress with white picture hat and carried a white bouquet. The bridesmaid was Miss Mary E. Carroll, who wore blue silk with white hat to match and carried pink. The best man was James P. Dugan. The bride's gift to the bride was a sapphire ring, while the groom's gift to the bride was a pair of gold cuff links. After honeymoon trip to New York the couple will make their home at 225 Perry st.

# FAILED TO REGISTER: SHOT SELF

LIMESTONE, Me., June 12.—The reason for the suicide of Gus L. Kenniston, 24, son of Fred Kenniston, who ended his life by shooting himself through the head, was fear of consequences of failing to register. It is said he has been in Canada for some time and did not know about the registration.

He was told to go to the county clerk and explain the matter, but he was going fox hunting, and immediately went into the yard and shot himself, dying instantly.

# URGENT REDUCTIONS IN SURTAXES ON INCOMES

WASHINGTON, June 12.—Further reductions of surtaxes on incomes above \$40,000 less than the original house rates, were urged in the senate finance committee today by Senators Penrose and Lodge during consideration of the war revenue bill. The committee already had struck out the so-called Lenroot house amendments increasing surtaxes on incomes above \$40,000.

It also seemed probable that the committee today would vote to increase the house tax on excess profits from 15 to 20 per cent.

Retrospective taxes on last year's incomes have been stricken out of the bill by the committee.

Discussion of administrative questions connected with the tax section delayed the committee today, so it deferred action on the Penrose-Lodge amendment for further reduction of rates upon incomes in excess of \$40,000 and did not reach the publishers' tax.

# INOCULATIONS OF GEN. PERSHING'S MEN

LONDON, June 12.—The elaborate plans that had been made for the entertainment today of the enlisted men of Gen. Pershing's party were cancelled this morning because of a military order that all the men report at a local hospital for inoculations, which would occupy the entire day. The American women who had planned a garden party at Harrow for 200 guests promptly changed their plans by inviting the conscripts of two large military hospitals to the places of the American soldiers.

While Gen. Pershing and his staff were guests of the Earl of Derby, the minister of war, at a luncheon this afternoon Lord Denham escorted the other officers through the park, the house of lords. A large number of officers also found time to visit King's college where they saw the "intensive" teaching of French and other foreign languages to the British troops.

The government's dinner to General Pershing and his staff this evening at which Premier Lloyd George will preside, completes the social program for the party in this country.

# EXTRA PRECINCT VOTED FOR WARD NINE

The fourth precinct in Ward 9 is now established for Commissioner Donnelly presented an order at the meeting of the municipal council this morning asking that the ward be enlarged and that boundary lines be established for precincts two and four. The order adopted reads as follows:

The boundary lines of Precinct 2 of Ward 9 will be re-established as follows: Beginning at the intersection of High and Oak streets; thence easterly through said Oak street to Nesmith street; thence southerly through said Nesmith street to Main street; thence easterly through said Main street to Butman street; thence northerly through said Butman street to Andover street; thence easterly through said Andover street to the boundary line of the town of Tewksbury; thence southerly by said boundary line of the town of Tewksbury to the Lowell and Andover railroad; thence westerly by said Lowell and Andover railroad to the westerly line of Shedd playground; thence northerly by said westerly line of Shedd playground to the southerly line of the Lowell cemetery; thence westerly and southerly by the line of the Lowell cemetery to the Concord river; thence northerly by the thread of the said Concord river to Rogers street; thence easterly through said Rogers street to High street; thence northerly through said High street to Oak street; thence southerly by the boundary line of Precinct 4 of Ward 9 are established as follows: Beginning at a point at the intersection of Lawrence street and the thread of the Concord river; thence southerly by the thread of the said Concord river to the Lowell cemetery; thence westerly by said Lowell and Andover railroad to the westerly line of Shedd playground; thence northerly by said westerly line of Shedd playground to the southerly line of the Lowell cemetery; thence southerly by the line of the Lowell cemetery to the Concord river at the point of beginning.

# FEED U. S. SAILORS IN GERMANY

WASHINGTON, June 12.—Germany has notified the United States that she regards the 74 American merchant sailors brought to the German coast as prisoners of war and that they will be treated as such.

To insure them of adequate care in the prison camp this government has arranged for the men with additional food and other necessities through Switzerland.

# SITES FOR ARMY CAMPS

WASHINGTON, June 12.—Fort Atley, Kas., and Des Moines Ia., were added by Secretary Baker today to the list of approved sites for divisional camps of the national army. Twelve of the sixteen sites have now been approved.

# ONE "RARE" DAY SO FAR

We have often heard of rare days in June, but so far this month there has been but one, and that was one week ago yesterday, for that was the only day this month that there was no rain in evidence some time during the day. Some reports of the day have been bright and fair but heavy rains or showers occurred before the day was over.

According to the records kept at the office of the Locks and Canals in Broad Broadway the precipitation so far this month was 1.61 inches which is much above the average for the same period in former years.

The local forecast for today was showers, fair and warmer tonight and moderate showers and winds tomorrow. Those who are anxious to attend the circus tomorrow are hoping that the day will be pleasant while the store clerks are hoping for a clear day. The weather Thursday afternoon, for last Thursday afternoon, the first of the summer holidays, the rain came down in torrents.

## RED CROSS CHAPTERS AND HOW MAINTAINED

As a result of the war inspired patriotism, the number of Red Cross chapters in the United States has more than doubled in the past three months. The number is now three times that of a year ago. More new chapters were formed in April than existed in the whole country last July. Twenty-six new chapters were organized in the month of February; 74 in the month of March, while April surpassed all records with 130 new chapters, a 51 per cent increase. This brought the total number of 562 chapters as against 242 at the first of the year.

Requests for chapters have come from every part of the country, and from Alaska, Porto Rico, Cuba and the Philippines.

Edgar H. Wells, director of chapters for the whole United States, is stationed at national headquarters, Washington, and is also acting as director of home division, which includes the District of Columbia, Maryland, Virginia and West Virginia. The northeastern division includes Maine, New Hampshire, Vermont, Massachusetts and Rhode Island, with John L. Saltonstall and other relatives will go to Washington to be present at the ceremony.

## ENGLAND READY TO REVISE TERMS

If Russia Wishes Will Take Up Earlier Agreement

Stands With Wilson for Freeing Races From Foreign Tyranny

LONDON, June 12.—In reply to the Russian government's request for a statement of the British war aims, Great Britain has forwarded to Petrograd a note in which is expressed hearty acceptance and approval of the principles which President Wilson laid down in his historic message to congress.

The British government believes, broadly speaking, that the agreements made from time to time with Britain's allies are conformable to these standards. In case, however, Russia wishes some modification of agreements entered into with the allies, Britain is ready with her allies to consider and, if necessary, revise them.

The purpose of Great Britain at the outset, says the note, was to defend the existence of the country and enforce respect for international agreements. Since then there has been added that of "liberating populations oppressed by alien tyranny." The note speaks not only the liberation of Poland by Russia, but of that section of Poland within the dominions of the Germanic empires.

**Liberating Populations**

Following is the text of Great Britain's reply:

"In the proclamation to the Russian people included with the note it is said that free Russia does not purpose to dominate other peoples or take from them their national patrimony, or forcibly occupy foreign territory."

"In this sentiment the British government heartily concurs. They did not enter the war as a war of conquest; they are not continuing it for such objects. Their purpose at the outset was to defend the existence of their country and enforce respect for international engagements. To those objects have now been added that of liberating populations oppressed by alien tyranny."

"They heartily rejoice, therefore, that free Russia has announced her intention of liberating Poland, not only Poland ruled by the old Russian autocracy, but equally within the dominion of the Germanic empire. In this enterprise the British democracy wish Russia Godspeed."

**Seek to End Causes of War**

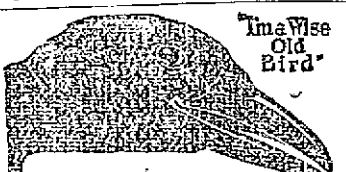

"Beyond everything we must seek such settlement as will secure the happiness and contentment of peoples and take away all legitimate causes of future war."

"The British government heartily joins with their Russian allies in their acceptance and approval of the principles laid down by President Wilson in his historic message to the American congress. These are the aims on which the British peoples are fighting. These are the principles by which their war policy is and will be guided."

"The British government believes that, broadly speaking, the agreements they have from time to time made with their allies are conformable to these standards, but if the Russian government so desire they are quite ready with their allies to examine, and, if need be, to revise these agreements."

### CARLOAD OF AUTO TIRES

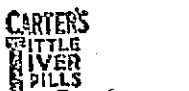

Another carload of tires which has been delayed en route has arrived for distribution by John F. Myers. More tire racks were needed to accommodate the stock which includes every available size of tires and tubes. Now the tire and supply racks and shelves extend to the ceilings on both sides of the store on Middlesex street. "Myers for Tires" seems to be the slogan of which he never tires. It has been reported that "John Y." is working on a new invention, endeavoring to perfect a so-called floating tire, which would permit the auto driver to ride on water without extra equipment. But he will have to make them substantiate proof, because what would happen if one should be blown out while sailing along?

## BONAR LAW LOOKS FOR AID FROM RUSSIA

LONDON, June 12.—The government has declined to cancel the Russian passport of James Ramsay MacDonald and Frederick W. Jowett, who have been prevented from sailing by Petrograd to meet Russian sailors by the National Seamen's and Fishermen's union.

The government explained that they were issued in response to the request of the Russian government upon the advice of Arthur Henderson, member of the war council and representative of labor, who is now in Russia, and the British ambassador, Sir George Buchanan.

Intention to adjourn the house of commons last night as a protest against the granting of the passports was defeated without division after Mr. Bonar Law, chancellor of the exchequer, had made the foregoing explanation.

Mr. Bonar Law pointed out the difficulty of giving aid to the Russian revolution or forswearing its course, but said it was quite certain that there was a possibility of new Russia playing in the world a more effective part than ever played by Russia under the former czar.

Under proper guidance new Russia could be a great help to the British government believed that the Russians realized freedom had to be fought for and that they intended to fight for it.

MacDonald and Jowett had not been granted passports as representatives of the Russian revolution, but in response to the invitation of the Russian government and Ambassador Buchanan's advice that great harm would be done if passports were refused, and because Mr. Henderson, now in Russia, had expressed the opinion that in the interests of the war these two members should be allowed to proceed.

The position of MacDonald and Jowett is still uncertain. They are still at the port from which they intended to depart with George H. Roberts, the labor whip, who considered it inadvisable to proceed while others were detained. But Mrs. Emmeline Pankhurst and other members of the union sailed.

According to a Central News report MacDonald and Jowett have signed an acceptance of a guarantee that they would not be subject to restriction to the merchant seamen for the murder and destruction committed by German submarines, which would mean that they would not be subject to the same restrictions as the other members of the union. This, however, is not confirmed officially.

**Wilson's Note Causes Sensation**

THE HAGUE, via London, June 12.—President Wilson's note to Russia was published yesterday in Germany. The newspapers made no comment on it, as the foreign office had given notice that the document should be postponed until today.

The document is reported to have caused a sensation in Germany.

**N.E. WANTS \$156,700,000 IN FOUR DAYS**

BOSTON, June 12.—At 1 o'clock yesterday afternoon less than half of New England's allotted quota of subscriptions to the Liberty Loan Bonds, which has been fixed at \$300,000,000, had been subscribed.

Exactly \$148,500,000 had at that time been recorded at the Federal Reserve bank of Boston, leaving \$156,700,000 to be raised before next Friday noon, when subscriptions close.

In order to bring about this result business days, counting yesterday afternoon and Friday morning as half days, would have to come in from New England at the rate of \$3,175,000 a day, a sum far in excess of anything which has ever been turned in during the present campaign.

At the executive council of the Federal Reserve bank of Boston yesterday it was voted to make a special discount rate of 3-1/2 per cent, not to exceed 50 days, on the bonds secured by Liberty Loan Bonds or United States certificates of indebtedness as collateral.

**LOWELL GUILD COUNCIL**

A meeting of the Lowell guild council was held at the guild rooms in Dutton street, yesterday afternoon with Mrs. Edward X. Burke in the chair. Several matters of interest were discussed among which was the proposition of appointing a nurse for work in the local Greek community.

Figures for May were given by Miss Holland, superintendent as follows: New patients, 132; visits for nursing care, 1023; milk station calls, 141; babies at conference, 57; new babies taken

on, 15, divided between 4 breast-fed, 7 home modification and 7 station modification. Grocery orders given were 9, and milk given away 475 quarts. The agencies co-operating during the month were the board of health, board of charities, Social Service league and Anti-Tuberculosis council. The following clothing was given: One box, children's; two boxes of women's; one box, men's; two pairs of shoes; three hats.

**RADIUM TREATMENT FOR CANCER**

BOSTON, June 12.—Discussion of the result of radium treatment for cancer and improved methods of caring for children stricken with tuberculosis featured the addresses at the opening session today of the 13th anniversary of the Massachusetts Medical society. Prominent physicians and surgeons from New York and the New England states were on the list of speakers.

## neurasthenia

is a condition of nervous exhaustion. Worry, overwork, excesses, an attack of the grip—many things may cause it. Symptoms: Over-sensitiveness, irritability, headache and a disposition to worry. The only way to feed undiminished nerves is through the blood.

## Dr. Williams' Pink Pills for Pale People

are recommended in such cases because they are a non-alcoholic tonic and through the blood build up the weakened nerve cells. They also correct a tendency to anemia, usual in neurasthenia.

# LOCAL PRIESTS GO TO NEW FIELDS; CARDINAL ANNOUNCES CHANGES

REV. T. W. BUCKLEY

REV. L. C. BEDARD

Cardinal O'Connell has filled the vacancy at St. Peter's church, caused by the promotion of Rev. W. George Mullin to pastor of the Manchester-by-the-Sea parish and has made several other changes of interest to Lowell.

Rev. Francis L. Shea has been assigned to St. Peter's, Fr. Shea is a native of Cambridge, where his parents now reside. Fr. Mullin is also a native of Cambridge.

Rev. L. C. Bedard, assistant at St. Louis church, Lowell, has been made administrator in charge of the French mission at Beverly, which in a sense, removes it from the mission status and makes it a parish.

Rev. Francis X. Gauthier, has been assigned as assistant at St. Louis church, Lowell, to fill the vacancy caused by the promotion of Fr. Bedard. While the going of Fr. Bedard from Lowell will cause regret among all with whom he came in contact here, the fact that his removal comes as a promotion is very pleasing to his friends.

Rev. Thomas W. Buckley, assistant at St. Columba's church, Lowell, has been assigned to assist at St. Vincent's parish, South Boston. Rev. Francis A. McNeill, assistant at St. Vincent's, So. Boston, succeeds Fr. Buckley at St. Columba's.

The removal of Fr. Buckley will cause great regret among the parishioners of the Pawtucketville church. He came here for his first assignment, and his earnest and enthusiastic efforts soon made him a great favorite with all. He worked zealously for everything in connection with the parish, promoting successfully several of the parish reunions and garden parties. He also organized the Holy Name choir, and was instrumental in forming several of the parish societies. He was in charge of the Sunday school, and acted as spiritual director of several of the societies. Rev. Fr. Buckley, who replaced Fr. Buckley, has been actively identified with the men's

and boys' clubs of St. Vincent's parish in South Boston and the organizer and director of the famous St. Vincent's Pipe and Drum corps.

Rev. Edwin P. Hasset and Rev. William E. Driscoll, the two Lowell boys ordained last week, have been assigned. Fr. Hasset goes to the Church of the Holy Family, Rockland, and Fr. Driscoll has been assigned as assistant at St. Anne's church, Reading.

Several other changes, including the assignment of all the priests ordained last week, have been announced by the cardinal. They are as follows: Rev. Fr. Edwin P. Ryan, D.D., assistant at St. Peter's church, Cambridge, becomes assistant at St. Patrick's church, Boston.

Rev. Fr. Charles A. Donahue, assistant at St. Patrick's church, Stoneham, to become assistant at St. Peter's church, Cambridge.

Rev. Fr. John M. Somers, assistant at St. Gregory's parish, Dorchester, to become chaplain of the Consumptive hospital camp in Mattapan.

Rev. Fr. John W. Dowd, assistant at St. Patrick's church, Watertown.

Rev. Fr. Thomas J. McElroy, assistant at St. James' church, South End, Boston.

Rev. Fr. Edward M. Hartigan, assistant at the Church of the Immaculate Conception, Everett.

Rev. Fr. Cornelius J. Donovan, assistant at St. Mary's of the Angels parish, Boston.

Rev. Fr. William J. Jellis, assistant at St. Mary's church, Melrose.

Rev. Fr. John D. McKee, assistant at St. Joseph's church, Amesbury.

Rev. Fr. Cornelius A. Foley, church of the Most Blessed Sacrament, Haverhill.

Rev. Fr. James S. Kelleher, St. Joseph's church, West End.

Rev. Fr. Joseph M. Holland, to St. Mary's church, West Quincy.

Rev. Fr. Peter T. Linehan and Henry J. Ryan, assistants at St. Anthony's church, Cohasset.

charging direct complicity in the death. It named Dick Carter, 25 years old, of Springfield, who is alleged in the warrant to have suffocated Lloyd by wrapping the baby around the body until the baby was smothered.

The warrant was issued late Saturday night, at the time the mob was demanding the lives of the six suspects charged with complicity in other alleged abduction plots.

Private detectives and the police-men of more than 100 cities have been asked to aid in capturing Carter.

Four of the six suspects, whom a mob surrounded at Stockton, Mo., early yesterday and threatened with death, still were in jail in the Hotel Custer, located at the corner of Main and Third streets in Kansas City.

C. J. Piersol and Cletus Adams were in jail at Kansas City, Mo., and were again subjected to a lengthy questioning by Judge A. A. Johnson, of the Greene county criminal court.

The departure of the agents from Kansas City was thought possibly to foreshadow developments in the case there. Little yet has come to the surface to show the reason for the activities of the federal agents except the allegations that Piersol and others of the prisoners had been abductees of a St. Louis munitions maker as a part of a German plot to thwart traffic in war material to the allies.

At least one person whose name has not yet been announced is being sought by authorities.

**PRES. BATES TO NAME COMMITTEES**

BOSTON, June 12.—The constitutional convention yesterday voted to its president, John L. Bates, the power of appointing the committees. The vote followed a long debate over the report of the committee on rules, which recommended such action.

The question whether the convention shall submit the results of the deliberations to the people in a block or shall submit each proposed amendment separately, was placed before the delegates by a motion of E. Gerry Brown of Brockton. Action was deferred.

**GATT. BICKEL DEAD**

Skinner of "Gospel Ship" Was One of the Most Successful American Missionaries in Japan

Kobe, Japan, May 16.—(Correspondence of The Associated Press)—Capt. Luke W. Bickel, one of the most successful American missionaries in Japan is dead.

Capt. Bickel was known as the skipper of the "gospel ship," the little steamer Fukui Maru, with which he visited practically every port, and cranny of the islands of the inland sea.

## SPRINGFIELD FIRM TO BUILD WATER CAMP

SPRINGFIELD, June 12.—Fred T. Ley & Co., of this city received word yesterday afternoon from Washington that it had received the contract for construction of an army mobilization camp at Ayer. It calls for an outlay of nearly \$5,000,000 and represents probably the largest single contract that ever came to a Springfield contractor.

Five thousand men will be put to work at once by the Ley company. Operations will begin tomorrow. The specifications call for construction of a complete army camp for 30,000 soldiers, with most of the facilities of a city of that size.

The camp will be a mile wide and a mile and a half long. The buildings will include barracks, mess halls, cook houses, officers' quarters, offices, stables, storehouses, canteens and lavatory buildings. There will be a complete drainage, water and roadway systems must be built and the contract calls for completion by Sept. 1.

The contract is on the percentage basis. The camp is to be built on the site of the old Ayer paper mill, and will probably be used for another mobilization of drafted troops after the first recruits are trained and may be used several times. If universal training is adopted Ayer will probably continue the principal New England centralization camp.

Trade in Lowell with Sun advantage. You will save money on your purchases.

## NEARING LAST CALL FOR LIBERTY LOAN

Lowell's share of the Liberty Loan is under-subscribed and an urgent call has been sent out for all to fall in line and help swell the total. If you have not subscribed as yet, now is the time and if you have subscribed think it over right away and see if you cannot subscribe for a little more. The time is short, there remaining but three more days in which to make application.

Tonight at nine o'clock fire and church bells throughout the city will ring as a warning that the time limit on the Liberty Loan subscriptions has nearly expired, and will be a summons for every patriotic American citizen to do his share to help raise the money required.

Last night at nine o'clock the bells of the Immaculate Conception and St. Anne's church pealed forth four strokes, indicating that but four days remain. Tonight three strokes will be sounded by practically all of the church bells of the city; tomorrow night there will be two strokes sounded and on Thursday night, one.

The nation-wide ringing of bells is the suggestion of Mrs. William G. McAdoo, wife of Secretary McAdoo and daughter of the president, the chairman of the women's Liberty Loan committee at Washington. In a telegram sent to P. L. Spaulding, president of the New England Telephone Co., Mrs. McAdoo's plan for ringing the bells is outlined as follows:

"The women's Liberty Loan committee is arranging through the services of the Federal Reserve banking districts to have all bells in the United States ring at 9 o'clock every night from Monday, June 11, to Thursday, June 14, inclusive. There will sound four bell strokes on Monday night, three on Tuesday, two on Wednesday and one on Thursday, the old Liberty bell to lead the Liberty Loan bell ringing. You can aid the committee immeasurably, particularly in those districts not at Federal Reserve centres, by communicating with civic and church authorities to have the bells rung. It is with deep appreciation of your telegram and of your representative's call that the women's Liberty Loan committee makes this request of you in the hope that it is feasible." The telegram received by Mr. Spaulding is signed by Theodore N. Vall.

All of the national banks and trust companies of the city have been asked to report to the local committee at the close of business on Wednesday just how much money has been subscribed. If the total amount apportioned to Lowell has not been reached at that time then the committee may be called upon to make a last and strenuous appeal for citizens to come forward and add their mite. Yesterday many subscriptions came in, some from new subscribers and others from people who previously purchased bonds.

The Massachusetts Cotton Mills sent an order into the Union National bank for \$100,000 additional as a subscription during the day and Humphrey O'Sullivan telephoned from Boston to state that he had put in \$25,000 in various banks, but he was unable to subscribe still more if it were necessary. The American Hide and Leather Co., the American Woolen Co. and various other organizations have also subscribed for more bonds and the local physicians have signified their intention of subscribing for about \$25,000 worth.

Today the Boy Scouts distributed to the homes in this city and surrounding towns 10,000 appeals to the householders to do their duty by the Liberty loan.

The United States Cartridge Co. total has attained the round figure of \$70,000 and is still growing. There are more than 1200 individual subscribers at this big industry. The International Steel and Ordnance found that 37 out of its 75 employees subscribed. It is hoped that at the close of the campaign a statement may be drawn up showing just how completely the industrial workers responded to this call.

## Good Health Not Found in Powder

The Plant Juice Man, at Dow's Drug Store, Tells the True Secrets of Health.

As health talks to women become more frequent both on the platform and in the newspapers, the mass of women are beginning to realize what the more cultivated have always known, namely, that good health cannot be found in the powder box or rouge pot. True, the externals of health may be found in that manner, but the basis of health lies deeper, and is just as easily obtained.

Many remedies may be found, but the best, in the opinion of most women, is Plant Juice, the new herbal stomach remedy nature's own peerless preparation. Thousands of women have been restored to health by the use of this wonderful medicine, as their numerous testimonials show.

One of the latest is that of Mrs. E. Merrimack St. A well known resident of Lowell, who has hosts of friends and acquaintances. She gave the following:

"I have been troubled with my stomach for the past four years and all the food that I ate fermented and formed gas in my stomach. I could not sleep at night on account of the pain, and felt at times as if I were going to die. I had no appetite whatever and could not eat the lightest kind of food. I was badly constipated, had headaches and was weak and completely run down; I was badly constipated and very nervous; I had read so much about Plant Juice that I decided I would try it. Now I am happy to say that I am feeling fine. I sleep well and have a fine appetite, the results have simply been marvelous in my case and I am glad to recommend this medicine to others. I cannot be too thankful for my recovery to health."

There are numerous symptoms of this trouble that Plant Juice can relieve. In fact any one of the following: indigestion, dyspepsia, bad breath, sick, throbbing, headaches, poor circulation, night sweats, that tired feeling, costiveness, a coated tongue or a poor complexion.

The Plant Juice Man is at Dow's, The Drugists, in Merrimack Square, Lowell, where he is daily meeting the local public and introducing and explaining the merits of this remedy.

## EVERYTHING READY FOR BATTERY B BALL

The state army in Westford street will be transformed this week by the decorator into a military wonderland for next Friday night. Battery B, new military organization will give its "farewell" ball.

This will be practically the last opportunity to meet the young men who have volunteered for service in France, for the artillery will be called into the service within a short time now, it is predicted.

Every feature of the Battery B dance Friday night will be military in character, and the program of events will keep everybody interested and entertained during the entire evening.

Here is the substance of a letter which has been received from Lieutenant Governor Calvin Coolidge:

"I expect to be able to attend the ball to be given by the Field Artillery company at Lowell Friday night. I wish to thank the battery for extending me this invitation. If there is anything I can do for the men of the Lowell organization, I hope you will write and let me know about it." A reception to the lieutenant governor and his staff is one of the features planned for the ball. In the line with him will be Mayor and Mrs. James E. O'Donnell, Gen. and Mrs. Gardner W. Pearson, Gen. and Mrs. Butler Ames, and the officers and wives of the battery, as well as the patronesses of the dance and other guests.

A dance program of 20 numbers, music furnished by the 2d Infantry band, Mass. N. G., will be given in honor of Battery B by the lieutenant governor, acceptance by Capt. Sumner H. Needham, sounding of the colors; salute to the flag, by Battery B, commanded by Capt. Needham and officers.

A dinner in honor of Lieut. Gov. Coolidge will be given at the Richardson hotel prior to the ball. A detail from Battery B will meet the executive and escort him to the army.

Battery B orchestra will assist during the evening, and will be stationed near the section reserved for the guests, where the band stops playing for the dancing, the orchestra will furnish concert and song number selections.

The patronesses for this event are: Mrs. Frederick A. Flather, Mrs. Lucien Horton, Mrs. Frank E. Dunbar, Mrs. Anna Jefferson, Mrs. S. R. Walker, Mrs. Charles Farns, Mrs. Mary W. Holden, Mrs. George H. Jenkinson, Mrs. James E. Nesmith, Mrs. Thomas Scott, Mrs. Charles L. Stover, Mrs. C. C. Sibley, Mrs. Matthew P. Mahoney, Mrs. James Gilbert Hill, Mrs. Frederick A. Fisher, Mrs. Alvah Sturgess, Mrs. Mary E. Gaudy, Mrs. Mary Tefft.

One of the charming features of the dance will be the appearance of thirty high school girls in their olive drab uniforms, who have offered to assist the Battery B boys in any way they can. This offer was accepted immediately and the girls will undoubtedly be the center of attraction at the ball. They are Misses Agnes J. Jeyes, Elsie Johnson, Olga Shay, Grace Martin, Pearl Donovan, Mildred Tighe, Pearl Small, Bernice Moody, Ethel Scott, Madeline O'Day, Bessie Keyes, Ruth Handley, Aditha Lee, Tina Mulachy, Dorothy Farnsworth, Florence Gullison, Sally System, Helen Tighe, Marguerite Dougherty, Emily Harris, Helen Gibbons, Madeline Doran, Helen Foye, Irene Bentley, Gertrude Clark, Muriel Leach, Gertrude Darling, Beryl Blair, Catherine McDonald, Esther Ziskind, Emma Paresky, Bessie Braverman.

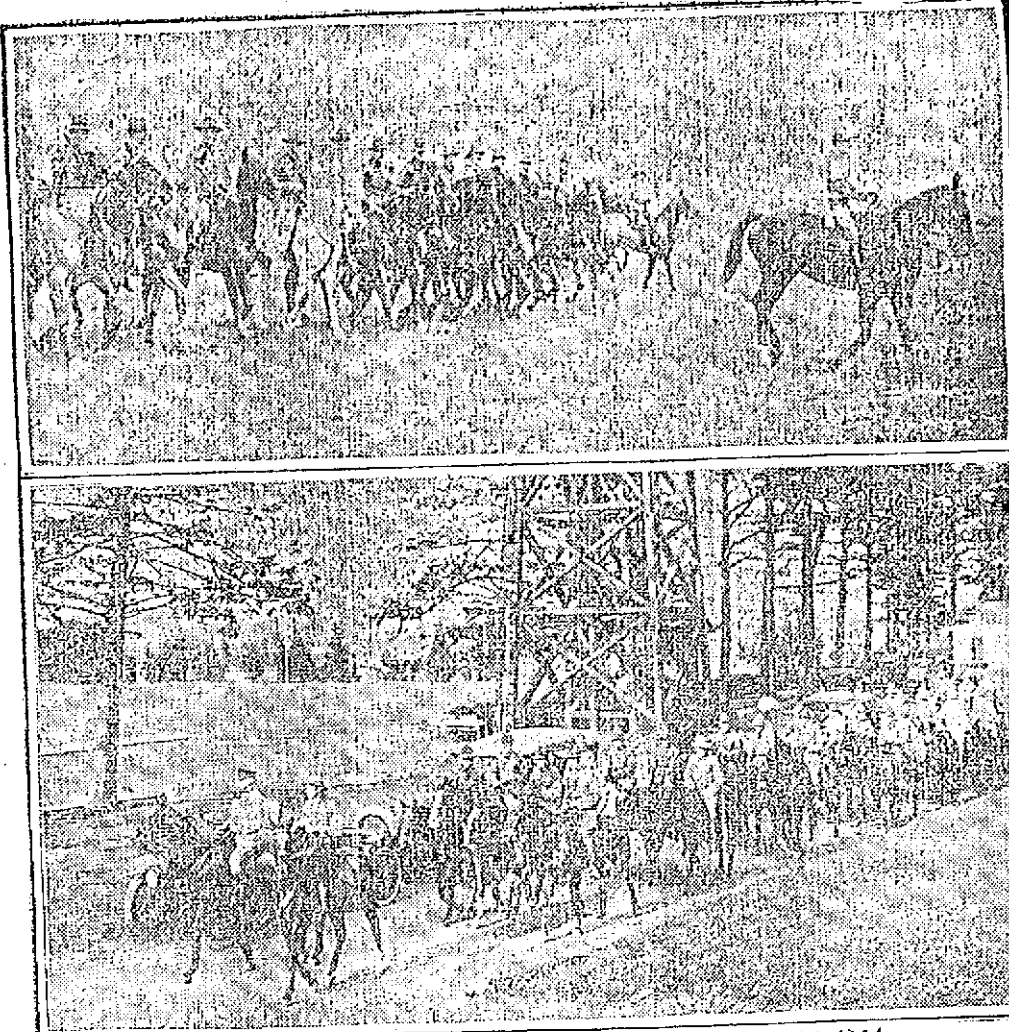

At 10 o'clock there will be a company M quarters for the ladies' rest and check room, through the courtesy of Capt. Daniel Christian. Through the courtesy of the Ben March company, a large Victrola will play the latest numbers in this room during the evening.

Check and smoking rooms for the men will be in the basement near the targets.

On account of the large number of people who will attend, the request is made that everybody get there early and into the big drill shed, so that there will be no crowding in the corridors.

The quarters formerly used by Major Kittredge will be used for the guests, patronesses, and high school girls committee.

## HARD RIDING LEARNED AT POLO WILL BE USED IN UNCLE SAM'S SERVICE

"MILLIONAIRE CAVALRYMEN" AT MEADOWBROOK, N.Y.

Men of wealth preparing to "do their bit" for Uncle Sam are shown in the accompanying two pictures, which depict members of a "millionaire cavalry company" drilling at the famous Meadowbrook club, on Long Island, N. Y. The squad is composed of millionaire polo players of the exclusive Meadowbrook club, and they are put through hard drills in preparation for service in the army.

tures planned for the ball. In the line with him will be Mayor and Mrs. James E. O'Donnell, Gen. and Mrs. Gardner W. Pearson, Gen. and Mrs. Butler Ames, and the officers and wives of the battery, as well as the patronesses of the dance and other guests.

The answer of the battery members to this is that they will have the services of the best military band in New England, when the Sixth comes to town.

Here is the program for the ball as tentatively announced:

ELKS WILL HOLD FLAG DAY EXERCISES

In accordance with the suggestion contained in Mayor O'Donnell's flag day proclamation all civil and military organizations are cordially invited to participate in the parade and exercises on the South common, Thursday afternoon, under the auspices of Lowell lodge, No. 87, B. O. Elks. The parade will form in Middle street and will march to the common, via the downtown streets.

These exercises are obligatory on the part of all lodges identified with the Order of Elks in past years, and have been held indoors. This year it has been deemed advisable to make the demonstration a public one and to encourage the active participation of everyone in it. With this in view the committee in charge of the local affair extends a cordial and earnest invitation to all organizations and citizens of the city to participate and make it a memorable one in the annals of the city's history.

The members of the Machine Gun company will march in the parade and also the members of the new Lowell battery. The G. A. R. veterans have been invited to attend and it is expected that all semi-military, social and fraternal organizations of Lowell and suburbs will send a large contingent. James E. Donnelly, of Lowell lodge, will be the marshal of the Elks division, and Major Walter R. Jeyes will be chief marshal of the parade. All organizations of persons intending to participate are asked to report to the marshal before Thursday noon.

Exercises on Common

On the common the full ritualistic flag day exercises of the Elks will be conducted under the direction of Exalted Ruler Eugene T. Brown. As the flag is being raised the entire assembly will sing "The Star Spangled Banner," Nora Kegan Langton leading the singing. The next number will be the "Flag of Old Glory, the Flag We Love," by Nora Kegan Langton. George Joy Hawthorn of Boston will sing "Your Country Needs You Now," and the entire audience will sing a medley of patriotic songs, including "My Maryland," "Dixie," and "My Old Kentucky Home." The closing number will be "The Battle Hymn of the Republic," by James E. O'Donnell and Congressman John Jacob Rogers will be the speaker of the afternoon. The U. S. Cartridge Co. band will head the procession, and the Sixth Regiment band will, if arrangements can be made, head the military bodies.

The committee on arrangements consists of John P. Farley, Dr. T. F. Carroll, Major Walter R. Jeyes, William H. Mahan and Samuel Scott.

## WINS HIGH HONORS IN COLLEGE CAREER

Neil J. Cronin of Ballardvale, star football and baseball player at Georgetown university, has been accepted in the aviation section of the officers' reserve corps, and reported yesterday for training at the Massachusetts Institute of Technology, after having visited his brother, John Cronin, of Floyd Street, this city.

The acceptance of Cronin into the

NEIL J. CRONIN

aviation corps comes as the third high honor in the ending of his college career, as he recently passed the bar examination for the District of Columbia, and has received his degree from Georgetown Law school. Cronin prepared for college at Tilton Seminary in New Hampshire, where he became well known as an athlete and while at Georgetown he attained many honors both in studies and athletics. He will train for aviation for the next six months at Quantico, Mr. Cronin is well known in this city, having played here on many occasions with the Ballardvales.

## BANDITS AND VICTIMS EFFECT RECONCILIATION

PETROGRAD, June 12, via London.—Bandits of kakhkhaia in the Caucasus, who, under a local Rob Roy, Achmet Juti, for ten years have terrorized the dwellers in the valleys, murdering, plundering and kidnapping women, have just effected a reconciliation with their victims under romantic circumstances.

After the revolution the kakhkhaia organized self-defense societies and a short time ago called a mass meeting at Gudjant railway station, from which a raid against the robbers was proposed. During the meeting envoys of Achmet appeared armed to the teeth and announced that although they had no conscientious objections against continuing the feud they were equally willing to conclude peace.

The obdurate kakhkhaia replied that bandits already captured by them must be handed over to the authorities for punishment. The meeting promised to end in a general disagreement when more bandits appeared, escorting Achmet's wife, a beautiful young woman of Christian origin, whom Achmet after kidnapping in 1913, converted into a devoted partner.

Following the example of the Sabine women the bandits' wife fell on her knees, shed tears and so touched the hearts of the incensed citizens that peace was concluded on the spot. A resolutions was adopted declaring that the infants committed by the bandits were due to the morning influences of the autocey. A committee was despatched to the minister of justice with a petition asking for the quashing of pending prosecutions.

## CANADIAN CASUALTIES FOR YEAR 65,549

OTTAWA, June 12.—Canadian casualties at the French front between June 30, 1916, and June 5, 1917, totaled 65,549, it was announced here last night. The number of recruits secured during that period totaled 75,510.

Casualties from Feb. 1, 1917, to April 30, 1917, were 17,645, and enlistments during that period were 15,534.

Of the 65,549 casualties during the past year, 12,204 were killed in action, 3310 died of wounds, 311 died of sickness, 1328 are presumed to be dead, 633 are missing, 45,523 were wounded and 1010 are prisoners of war.

Of the 17,645 casualties during February, March and April, 2971 were killed in action, 342 died of wounds, 302 died of sickness, 436 are presumed to be dead, 12,243 were wounded, 430 are missing and 61 are prisoners of war.

## Why Not a Few Weeks on a Western Ranch This Summer?

A lot of ranch owners out in Wyoming, Idaho, Montana, Colorado, Nevada, Utah and Arizona have fixed up their homes and established cottages and house-lents near by, to accommodate summer boarders.

They are making it a business to take good care of these boarders, to furnish them with saddle horses, guide them on fishing, mountain climbing and sight-seeing expeditions and, beyond all, to make them comfortable and give them thoroughly good, well-prepared food. Good cheer is the keynote, and so the custom of taking one's family and spending a vacation on one of these western ranches has become very popular.

We make it our business to know about these ranches, and are prepared to give you the names and addresses of the best ones, the best facilities and attractions, cost of living there, and how to reach them most conveniently.

We will help you plan for such an outing and give you all the information needed; in fact, make all arrangements for the complete trip.

## TO SECURE FUNDS FOR RED CROSS WORK

Plans for the great Red Cross week, which is to be held in Lowell all next week, are rapidly nearing perfection. At city hall yesterday the ten men who are to act as captains of the ten teams for the collection of Lowell's quota of the \$200,000,000, which is to be raised throughout the country, met at city hall for a preliminary conference.

These men who have offered their services are: George H. Spillane, George C. Fairbank, Charles Nichols, Julian B. Keyes, George H. Runnels, Paul B. Chandler, John M. O'Donnell, Edward Fisher, Thomas J. O'Donnell and Fred P. Hayward.

The captains displayed much enthusiasm at the meeting, and it is clearly evident that there will be no need of spending valuable time in arousing the campaigners.

At city hall this afternoon a meeting to organize an advisory committee was held, and a large number of prominent men were present. This committee will be conducted by Fred C. Church. The campaign committee consists of Fred C. Church, George Stevens, James C. Bailey, John A. Hunnewell, Albert D. Milliken and Robert F. Marden. The campaign manager is Robert F. Marden. The office manager and secretary is John H. Murphy.

Lowell will be allowed to keep 25 per cent of the sum which she raises to be devoted solely to local relief work. The other three-fourths will be sent to the Red Cross headquarters to be used for the relief of America's fighting men.

New England's quota of the amount desired has been set at \$1,000,000; Francis L. Higginson, Jr., is chairman of the New England committee, and Major Henry L. Higginson is treasurer.

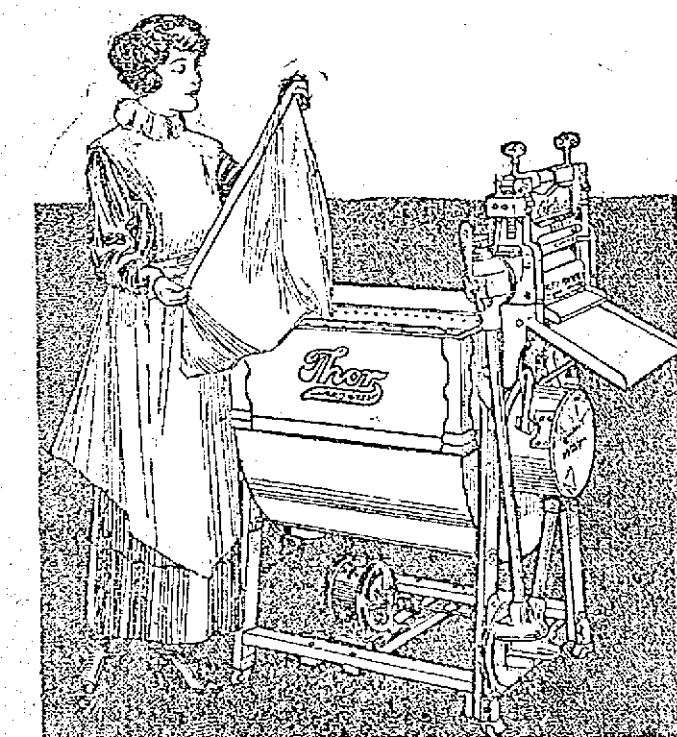

On the common the full ritualistic flag day exercises of the Elks will be conducted under the direction of Exalted Ruler Eugene T. Brown. As the flag is being raised the entire assembly will sing "The Star Spangled Banner," Nora Kegan Langton leading the singing. The next number will be the "Flag of Old Glory, the Flag We Love," by Nora Kegan Langton. George Joy Hawthorn of Boston will sing "Your Country Needs You Now," and the entire audience will sing a medley of patriotic songs, including "My Maryland," "Dixie," and "My Old Kentucky Home."
